Resource Governance and the Energy Transition: A Commentary Series The transition from fossil fuels to renewable energy is a global imperative. This transition presents challenges and opportunities for the hundreds of millions of people living in resource-rich countries.

Natural Resource Governance Institute

Improving natural resource governance, in particular by improving financial transparency in the extractive industries, is a crucial first step to ensuring citizens can hold their governments accountable for the oil and mineral wealth that belongs to their country, and to allowing citizens and governments to assess if they are receiving a fair deal for their resources.

Natural Resource Governance - ONE

The aim of the Natural Resources Group is to build partnerships, capacity and wise decision-making for fair and sustainable use of natural resources. Our priority in pursuing this purpose is on local

control and management of natural resources and other ecosystems. Published by IIED, February 2015 Raymond Achu Samndong and Isilda Nhantumbo. 2014.

Natural resources governance in the Democratic Republic of ...

The first lesson learned is the failure in natural resources governance results in ecosystem degradation, community distress and downfall. Failure in the enforcement of governmental laws and regulations in protecting forestlands from encroachment, controlling overharvesting of forest products, and preventing illegal logging was probably the most obvious reasons for Chudher tragedy.
