It is estimated that drug-resistant strains of bacteria are responsible for approximately 5,000 deaths a year here in the UK, and as much as 25,000 deaths a year in Europe. This is the subject of a new book by John McKenna, a retired medical doctor, who has since been practising natural medicine for 25 years. His new book titled, 'Antibiotics: Are they curing us or killing us?' looks at the threat of antibiotic resistance and how we can take responsibility as individuals to slow the increase ...
