Economics is said to begin with Adam Smith in 1776. Prior to that, nobody thought of economics, or markets, as an object of study. It is not that they didn't pay attention to economic matters, it is simply that they didn't think of it in any systematic or coherent manner. It was all just off-the-cuff intuition and policy proposals by a myriad of

In the history of economic thought, a school of economic thought is a group of economic thinkers who share or shared a common perspective on the way economies work. While economists do not always fit into particular schools, particularly in modern times, classifying economists into schools of thought is common. Economic thought may be roughly divided into three phases: premodern, early modern and modern. Systematic economic theory has been developed mainly since the beginning of what is termed t
