Sincere thanks for all the suggestions, I 'bit the bullet' and took the car to a Land Rover specialist (Asbbrook in Clyro) who told me that the XYZ switch would almost definitely have been the problem, but when a new switch is fitted it has to be mapped to the car through Land Rover

software, £25 and an hour later the car had been sorted and has been problem free now for the last 3 weeks.

Got problems with my td5 auto. When the vehicle is cold I put it into drive and seems to start of in 2nd gear as I pull away it struggles and easily gets up to speed to 30mph without changing gear. Then after driving for 2 mins I come to a stop and it then goes into first gear and won't shift out of first for a good 2 mins or longer holding the revs up high .
