The Ivory Billed Woodpecker James

The ivory-billed woodpecker is one of the largest woodpeckers in the world, at roughly 51 centimetres long and 76 centimetres in wingspan. It is native to the bottomland hardwood forests and temperate coniferous forests of the Southeastern United States and Cuba. Habitat destruction and, to a lesser extent, hunting has reduced populations so thoroughly that the species is listed as critically endangered by the International Union for Conservation of Nature, and the American Birding Association l
