High School United States History

High school is the education students receive in the final stage of secondary education in the United States and Canada. In the United States this lasts from approximately 14 to 18

years old in most cases. Most comparable to secondary schools, high schools generally deliver phase three of the ISCED model of education. High schools have subject-based classes.

High school (North America) - Wikipedia

Between 1910 and 1940 the "high school movement" resulted in rapidly increasing founding of public high schools in many cities and towns and later with further expansions in each locality with the establishment of neighborhood, district, or community high schools in the larger cities which may have had one or two schools since the 19th Century. High school enrollment and graduation numbers and rates

increased markedly, mainly due to the building of new schools, and a practical curriculum ...

Secondary education in the United States - Wikipedia

The high school movement is a term used in educational history literature to describe the era from 1910 to 1940 during which secondary schools sprouted across the United States. During this early part of the 20th century, American youth entered high schools at a rapid rate, mainly due to the building of new schools, and acquired skills "for life" rather than "for college."
