Logic Problems With Solution

A logic problem is a general term for a type of puzzle that is solved through deduction. Given a limited set of truths and a question, we step through the different scenarios until an answer is found. While these problems rarely involving coding, they require problem-solving and the ability to articulate plausible outcomes.

Logic Problems | Codecademy

An integral part of the puzzle is that those who have solved it are urged to keep the solution a secret, so there is no solution posted here. It is not a hard puzzle to figure out however. A claim that often accompanies these instructions is that the smarter an individual, the greater amount of difficulty the individual will have in solving it.
