Saturated Solution Definition

A saturated solution is a chemical solution containing the maximum concentration of a solute dissolved in the solvent. The additional solute will not dissolve in a saturated solution. The amount of solute that can be dissolved in a solvent to form a saturated solution depends on a variety of factors.

Saturated Solution Definition and Examples

A saturated solution is a solution in which there is so much solute that if there was any more, it would not dissolve. When a saturated solution is placed in contact with additional solute, solute neither dissolves nor is deposited. When water, or any solvent, has dissolved as much of any substance as it can, it is a saturated solution.
