2011 Reprint of 1922 Edition. Full facsimile of the original edition, not reproduced with Optical Recognition Software. Richard D. Wyckoff's writings never grow old. This book was originally published in 1922; it is still timely. Wyckoff's modus operandi was to have a small trading account ("not over five or ten per cent of my loose capital") and invest its profits into income-paying securities with the potential to appreciate in value. Wyckoff justified the size of his trading account

psychologically. "There is a much greater satisfaction in operating with a small amount of money for various reasons: It makes you more careful, because, having set yourself to the task of realizing a large profit on a limited amount of operating capital, you plan your moves shrewdly and do not take risks such as you would if operating with more money." (pp. 42-43) And then there's the emotional high of seeing outsized returns on a percentage basis. Chapters Include: 1. My First Lessons in Investing and Trading 2. Jesse Livermore's Methods of Trading in Stocks *Colchis Books*

Livermore started trading in securities when he was fourteen years old. He made his first thousand when a mere boy. He has practiced every device known to the active speculator, studied every speculative theory, and dealt in about every active security listed on the New York Stock Exchange. He has piled up gigantic fortunes from his commitments, lost them, digested, started all over again—and piled up new fortunes. He has changed his market position in the twinkling of an eye—sold out thousands of shares of long stock, and gone short of thousands of shares more on a decision which required reading only the one word, “but,” in a lengthy ticker statement. If his later experiences were not enough to catch the public fancy, Livermore would have

won it by his greatest feat of all: beating the bucket shops. Beating the cheaters, in fact, was Livermore's pet plan after things had gone against him and he was forced to start anew on a small-lot basis.

Trading Basics *CreateSpace*

Have You Ever Wanted To Learn How To Trade? Over 40 years ago I placed my first stock trade and my quest to learn how to trade in stocks began. Over the years I lost hundreds of thousands of dollars (I won't say the exact amount

because looking back I am so mad at myself for being so stupid) as I blindly went from one investing/trading method to another. Frankly, I didn't have a clue about trading and finally got sick and tired of losing money so I started on a quest to learn how to be learn to trade stocks successfully. It wasn't easy and I have spent over \$50,000 on trading courses and software programs over the years but I stuck with it and now make a nice little income from my trading business. Trading Basics is the stuff I wish I would have known years ago and is comprised of the exact same advice I give to my family and friends that express an interest in learning how to trade. It is by no means the ultimate how to trade stocks book but I think you will agree that there is a lot of wisdom

packed into it that can save you thousands as you learn how to be a trader. My Book Trading Basics For Free? In fact, I am going to make the purchase of my book a no-brainer because I am going to effectively give it to you FREE by giving you one of the juicy tips I talk about in my book!!! You see, when most people start trading stocks they open a brokerage account at one of the discount brokers they see on TV and pay \$7.95 - \$9.95 each time they place a trade. Hey, I love that little kid in the commercials too but not enough to give him my hard-earned money. No, I would rather pay \$1.00 or \$2.00 per trade wouldn't you? Note: This is for up to 200 shares. I recently bought 503 shares @ 21.31 and only paid \$2.51 in commissions so you would have to trade thousands of shares

to hit the rates charged by the "Discount Brokers" you see on TV. How do I do this? Easy, I use Interactive Brokers for my trading business. It's a deep discount brokerage that most people don't know about. Do a search for Discount Brokers and you probably won't see it listed in the search results. I never heard of them either until I started hanging around some professional traders and they all said they used IB so I checked them out and opened an account and have never had a problem with them. So do the math, $\$7.95 - \$1.00 =$ a savings of $\$6.95$ on just ONE trade. Hey, that's better than free isn't it? I hope you enjoy Trading Basics and that it will save you time and money on your trading journey.
