Performance Measurement for World Class Manufacturing By ...

An analysis of efficiency and productivity, OEE is globally recognised as a best practice measure and key performance indicator in a range of industries. OEE assesses quality, speed and downtime (availability x performance x quality), and can be used to indicate the overall effectiveness of a piece of production equipment or an entire production line.

The 12 most important metrics to measure in manufacturing

performance measures are not stand-alone items. World-class performance measures can exist only within - and they must support - a Total Quality Management (TQM) environment. For

Stanadyne Automotive's Diesel Systems Division, performance measures were the fourth critical factor supporting their TQM environment. The first three elements included
