color categories in thought and language

According to an influential universalist view, color categories across languages are organized around the universal focal colors black, white, red, green, yellow

and blue 28, 29, 30.

Language, thought, and color: Whorf was half right ...

Berlin and Kay identified eleven possible basic color categories: white, black, red, green, yellow, blue, brown, purple, pink, orange, and gray. To be considered a basic color category, the term for the color in each language had to meet certain criteria: It is monolexemic (for example, red, not red-yellow or yellow-red.)
