Original Strength *Xulon Press*

When you were a child, you had an amazingly strong, resilient and healthy body. The body you built through movement during the first several years of your life was meant to be the foundation from which you would continue to add strength, power and resiliency. Your body was meant to be strong, graceful, powerful, fluid, mobile and resilient. You were never meant to be broken, weak, fragile, stiff or injured. You were never meant to just "fall apart" with age. You are supposed to be able to conquer mountains, and even playgrounds, well into your golden years. You are supposed to enjoy this life with vitality. But, many of us do not. Many of us are just watching life go by. We have lost our way. We have lost our foundation. Our sedentary lifestyles have robbed us of the foundation and the joy of movement that we built as children. Because of this, we have lost our strength, our health, our resiliency and our vitality. Thankfully, we were indeed made to move. Through movement, specific movements, we can regain our foundation of strength, our foundation of health. We can become the strong, powerful, and graceful bodies that we were meant to be. We can enjoy this life with vitality. We don't have to be spectators, merely existing. We were made for adventure, for life! We can regain our Original Strength - our foundation. We can help our bodies remember how to move again and in doing so, we can become strong, healthy and resilient; like we were meant to be. We invite you to join us and regain the body you were always meant to have: A body capable of enjoying life.

The Hardstyle Kettlebell Challenge

A Fundamental Guide to Training for Strength and Power

Can You Go?

Assessments and Program Design for the Active Athlete and Everybody Else

Training people in sport as a coach or in fitness as a personal trainer is certainly rewarding work. But, there's a problem: What do we do next? There are countless books on diet and exercise, hundreds of machines, devices and gimmicks to train people, and new gadgets and gizmos are popping up daily. "Can You Go?" answers this question: What do we NEED to do next? Appropriate assessment leads to the appropriate answer. If there's a mobility issue, focus on mobility work. The same is true for body composition and strength; focus on what we need to do, not what we want to do. For the performance athlete, sometimes assessment can be the short, brutal and harsh question, "Can you go?" Lessons from this frankness can be learned by both the coach and trainer. The ill and the elite share the same basic body, and the job is to enhance performance and quality of life in every training situation.

Physiology of Strength *Pickle Partners Publishing*

First published in 1961, "[T]his book is the result of ten years of

research and experiment in the problems of muscle strength and muscle training at the Max-Planck-Institut für Arbeitsphysiologie, Dortmund, Germany supplemented by further work at the Lankenau Hospital, Division of Research, Philadelphia, Pennsylvania. There is provided the present status of these problems, and there is demonstrated how muscle strength may be built and maintained with a minimum of time and effort. "The methods used are adaptable, with suitable modification, to children, to average young people, to athletes in training, to sedentary workers and older persons who wish to maintain bodily strength, and to those who have undergone surgery and need rehabilitation of the muscle structure—in short, to anyone who wishes to develop and maintain good muscle tone. "A strong and well-built body not only has pleasing appearance, it permits the undertaking of arduous physical activities or active sports without undue fatigue, and with real enjoyment. "It is the author's hope that in this age of fast living and nervous tension, when there often seems neither time nor place for extensive exercise, this book will assist those who wish to maintain bodily strength and fitness—simply, at home, without elaborate equipment—on a do-it-yourself basis. It should prove of special benefit to teachers of physical education and rehabilitation."—THEODOR HETTINGER, M.D.

Tactical Barbell

Definitive Strength Training for the Operational Athlete *Createspace Independent Publishing Platform*

Operational athletes are a unique breed. You need to physically perform at an extraordinarily high level in stressful situations. Often in dangerous or unstable environments. As a SWAT operator, combat-arms soldier, or first responder, you have to be a Jack of All Trades. Let's take that a step further. You have to achieve some degree of mastery. You have to be strong, have incredible levels of endurance, and be capable of sustained bursts of intense activity. All while tired, hungry, cold, or worse. You can't train like a bodybuilder. You can't be sore for a week after 'leg' day. You can't afford to specialize like a powerlifter. You have other abilities you need to develop, things like cardiovascular training, work capacity, and occupational skills. Anyone that's operational knows it's a constant juggling act trying to become (and stay) superhuman. *Tactical Barbell* is a strength training program designed specifically for operational athletes using correct principles and best practices. The objective being to increase maximal-strength and strength-endurance, while taking into account the need to simultaneously train other fitness domains. Periodization based, with a simple progression model that allows for a great degree of customization. You won't find cables, balance boards or medicine balls in this program. What you will get is a reliable, repeatable, cutting edge system to increase your strength dramatically. In a manner that leaves you time and energy to train all those other things you need to be good at. No fluff. No frills. If you live in the arena, you know talk is cheap. The program includes a built in strength testing component. You will know whether or not your strength has increased, and by how much. Simple.

The New Primal Blueprint

Reprogram Your Genes for Effortless Weight Loss, Vibrant Health, and Boundless Energy *Primal Nutrition*

Mark Sisson's 2009 release of *The Primal Blueprint* was the catalyst for the primal/paleo/ancestral health movement to gain mainstream awareness and acceptance. Both the hardcover and paperback editions enjoyed a seven-year run at the top of the

primal/paleo charts and selling hundreds of thousands of copies. Sisson, publisher of the acclaimed *MarksDailyApple.com*, the acclaimed and most-visited primal/paleo blog, has spent the past six years diligently researching and evaluating recent the most up-to-date science and reflecting on thousands of users' experiences going primal. *The New Primal Blueprint* offers a comprehensively revised, expanded, and updated message from the original runaway bestseller. *The New Primal Blueprint* comes alive with a vibrant full-color presentation packed with photos, graphics, and cartoons to make for a fun, easy, and memorable read. Join hundreds of thousands of primal enthusiasts and embrace a new way of life where you take responsibility for your health, fitness, and happiness. Reject once and for all the flawed conventional wisdom that has left modern citizens struggling with fatigue, excess body fat, and elevated disease risk factors as a consequence of grain-based eating habits, exhausting exercise routines, sedentary lifestyle patterns, and high-stress existences that misdirect our genes and promote illness instead of wellness and longevity. "

Bridging the Gap from Rehab to Performance

In *Bridging the Gap from Rehab to Performance*, physical therapist Sue Falsone walks the reader through the thought process and physical practice of guiding an injured athlete from injury through rehab and back to the field of play. To both health care professionals and strength and conditioning experts alike, she describes the path as her athletes move through pain and healing toward optimal function and advanced performance.

Spring Chicken

Stay Young Forever (or Die Trying) *Simon and Schuster*

We've been tantalised by the idea of eternal youth since time immemorial. We're always asking how we can live longer, and better. Or, to put it another way, why can't we all be like Madame Calment who cycled till she was 100, smoked till she was 117 and died at the wonderfully old age of 122? Join veteran reporter Bill Gifford for a rip-roaring ride along the trail to the fountain of youth. Meet the scientists who have doubled the life-expectancy of mice by knocking out a single gene, and others like Aubrey de Grey, who claims that we are on the cusp of achieving 'longevity escape velocity', and who predicts that our children could live for a thousand years. An intoxicating mixture of deep reporting, fascinating science and sound advice, *Spring Chicken* will reveal the extraordinary breakthroughs that may yet bring us eternal youth, while exposing the dangerous deceptions that prey on the innocent and ignorant.

The Naked Warrior

Master the Secrets of the Super-strong, Using Bodyweight Exercises Only *Dragon Door Publication*

Have you noticed-the greater a man's skill, the more he achieves with less? And the skill of strength is no exception. From the ancient days of Greek wrestling, to the jealously guarded secrets of Chinese Kung Fu masters, to the hard men of modern spec ops, warriors and allied strongmen have developed an amazing array of skills for generating inhuman strength. But these skills have been scattered far and wide, held closely secret, or communicated in a piecemeal fashion that has left most of us frustrated and far from reaching our true strength potential. Now, for the first time, Russian strength expert and former Spetsnaz instructor Pavel has gathered many of these devastating techniques into one highly teachable skill set. In *The Naked Warrior* Pavel reveals exactly what it takes to be super-strong in

minimum time-when your body is your only tool.
