The Time Machine And Other

The Time Machine is a science fiction novella by H. G. Wells, published in 1895 and written as a frame narrative. The work is generally credited with the popularization of the concept of time travel by using a vehicle or device to travel purposely and selectively forward or backward through time. The term "time machine", coined by Wells, is now almost universally used to refer to such a vehicle or device.

The Time Machine - Wikipedia

DETAIL: The Time Machine, H. G. Wells’s first novel, is a “scientific romance” that inverts the nineteenth-century belief in evolution as progress. The story follows a Victorian scientist, who claims that he has invented a device that enables him to travel through time, and has visited the future, arriving in the year 802,701 in what had once been London .

The Time Machine (2002 film) - Wikipedia

The narrator of The Time Machine is all but absent from the book. He is one of the Time Traveller ’s dinner companions, which suggests that he is also a member of the British elite, but his profession is not named and he does not figure into any of the Time Traveller’s story about the future, which comprises the bulk of the book. The narrator is notable, though, for seeming less skeptical of the Time Traveller’s story than the other dinner guests.
