The Evolution And History Of The Apple Logo Design In 2020

Apple is one of the leading companies in the field of innovation and this couldn’t have happened without the company adopting design thinking. Design thinking is a solution-oriented process that is used to achieve innovation with considerations about the consumer at the heart of all development

stages.

Design Thinking Case Study: Innovation at Apple

Apple counts “design” as a foundation principle – the starting point of the entire product development process. It all started with the vision of Steve Jobs, when he founded a company that will make computers. He was not about to settle for just any design; it had to be better than good. In fact, the design had to be “great”.
