(PDF) Positive youth development through sport: A review

Healthy development of children and young people through sport Physical education and sport have an educational impact. Changes can be seen in (i) motor skills development and performance and (ii) educational potential. This shows the positive relationship between being involved in physical activities and psychosocial development.

Healthy development of children and young people through sport

It is commonly believed that through sports, children and adolescents learn values and skills that will serve them well as they prepare for the rest of their lives. Unfortunately, many youth sport programs are neither properly structured nor implemented in a manner that these life skills can be

learned in sport and later transferred to other life domains.

Enhancing Youth Development Through Sport: World Leisure ...

From the perspective of Positive Youth Development (PYD), young people are understood to embody potential, awaiting development. Involvement with sport provides a developmental context that has been associated with PYD, but negative outcomes can also arise from sport participation and school PE. Sport itself does not lead to PYD; rather, it is the manner in which sport is structured and delivered to children that influences their development.

Positive Youth Development Through Sport (International ...

The overall purpose of this study was to create a model of positive youth development (PYD) through sport grounded in the extant qualitative literature. More specifically, the first objective was to review and evaluate qualitative studies of PYD in sport. The second objective was to analyze and synthesize findings from these studies.
