AP Environmental Science FRQ Practice - AP Environmental ...

Choice (d) is correct because the fracking electricity generation uses less coal. It uses less coal because fracking utilizes drilling and high-pressured water to release gas from rocks to convert to energy. No coal is involved in the fracking process, so there would be a decreased use of coal. Contamination is a result of fracking when the water mixture used to retrieve the gas from rocks contaminates the groundwater with the chemicals and sands that are incorporated in the mixture.
