How To Make Profits Trading

We take profits when the price closes above the small bearish trend (blue line). Profit: \$0.16 per share. Since we are out of the market now, we need another price interaction with the bearish trend in order to enter the market. This happens 15 minutes later when price touches the trend line and prints a bearish candle.

How to Take Profits when Trading

It's like currency trading for dummies. To be profitable, the price will need to move AFTER your point of entry. So when you make a trade, you need to consider how to the price movement will go before you enter the trade. If you believe it is going

up, you make a buy trade. If you think it is going down, you will sell.
