Design Science Methodology For Information

Design science is an outcome based information technology research methodology, which offers specific guidelines for evaluation and iteration within research projects. Design science research focuses on the development and performance of artifacts with the explicit intention of improving the functional performance of the artifact. Design science research is typically applied to categories of artifacts including algorithms, human/computer interfaces, design methodologies and languages. Its applic

Design science methodology for information systems and ...

A concept of design science was introduced in 1957 by R. Buckminster Fuller who defined it as a systematic form of designing. He expanded on this concept in his World Design Science Decade proposal to the International Union of Architects in 1961. The term was later used by S. A. Gregory in the 1965 'The Design Method' Conference where he drew the distinction between scientific method and design method. Gregory was clear in his view that design was not a science and that design science referred
