New OIC articles - oracle-integration.cloud

Oracle's Integration Cloud Service, or ICS, provides functionality to integrate cloud-based applications within the cloud itself, although it does also support integration with on-premise platforms. Connecting two SaaS applications with ICS shouldn't pose too much of a problem for anyone familiar with basic integration principles, but some may find Oracle's online ICS tutorials less than exhaustive.

Oracle ACE Associate Phil Wilkins is a Senior Consultant at Capgemini, where he iPaaS, middleware and Oracle technologies. He is co-author of Implementing Oracle Integration Cloud Service (2017, Packt) and frequently contributes content to OTN, UKOUG Oracle Scene, and other publications.

Introduction to Oracle Messaging Cloud Service

Oracle Integration Cloud Service provides a complete method for integrating enterprise applications in the cloud. Integration Cloud Service (ICS) provides a cloud hosted means to integrate systems together using a graphical means to define and represent integrations.

Implementing Oracle Integration Cloud Service

Oracle Integration Cloud Service offers a large collection of adapters to connect to SaaS applications natively. Software as a Service (SaaS), also called on-demand software, is software that is offered as a hosted service. SaaS applications are typically accessed by users using a browser, but most offer API's to access and modify the data or to send events to the SaaS application to perform a task.

Connections define our integration points - Implementing ...

Before we dive deep into the major three areas, let's first take a look at the typical workflow when creating integrations with Oracle Integration Cloud Service. Since ICS is a cloud service, you only need to open a browser and enter the URL of your Cloud instance, for example:
<https://instancex-domainy.integration.us2.oraclecloud.com/ics>.
 We can sign into Oracle Integration Cloud Service by entering our credentials. Just like any Oracle Cloud Service users can be provisioned after ...
