The Gold Bug

The Gold-Bug

Excerpt MANY years ago, I contracted an intimacy with a Mr. William Legrand. He was of an ancient Huguenot family, and had once been wealthy; but a series of misfortunes had reduced him to want. To avoid the mortification consequent upon his disasters, he left New Orleans, the city of his forefathers, and took up his residence at Sullivan's Island, near Charleston, South Carolina. This Island is a very singular one. It consists of little else than the sea sand, and is about three miles long. Its breadth at no point exceeds a quarter of a mile. It is separated from the main land by a scarcely perceptible creek, oozing its way through a wilderness of reeds and slime, a favorite resort of the marsh hen. The vegetation, as might be supposed, is scant, or at least dwarfish. No trees of any magnitude are to be seen. Near the western extremity, where Fort Moultrie stands, and where are some miserable frame buildings, tenanted, during summer, by the fugitives from Charleston dust and fever, may be found, indeed, the bristly palmetto; but the whole island, with the exception of this western point, and a line of hard, white beach on the seacoast, is covered with a dense undergrowth of the sweet myrtle, so much prized by the horticulturists of England. The shrub here often attains the height of fifteen or twenty feet, and forms an almost impenetrable coppice, burthening the air with its fragrance. In the inmost recesses of this coppice, not far from the eastern or more remote end of the island, Legrand had built himself a small hut, which he occupied when I first, by mere accident, made his acquaintance. This soon ripened into friendship-for there was much in the recluse to excite interest and esteem. I found him well educated, with unusual powers of mind, but infected with misanthropy, and subject to perverse moods of alternate enthusiasm and melancholy. He had with him many books, but rarely employed them. His chief amusements were gunning and fishing, or sauntering along the beach and through the myrtles, in quest of shells or entomological specimens;-his collection of the latter might have been envied by a Swammerdam. In these excursions he was usually accompanied by an old negro, called Jupiter, who had been manumitted before the reverses of the family, but who could be induced, neither by threats nor by promises, to abandon what he considered his right of attendance upon the footsteps of his young "Massa Will." It is not improbable that the relatives of Legrand, conceiving him to be somewhat unsettled in intellect, had contrived to instil this obstinacy into Jupiter, with a view to the supervision and guardianship of the wanderer. The winters in the latitude of Sullivan's Island are seldom very severe, and in the fall of the year it is a rare event indeed when a fire is considered necessary. About the middle of October, 18-, there occurred, however, a day of remarkable chilliness. Just before sunset I scrambled my way through the evergreens to the hut of my friend, whom I had not visited for several weeks-my residence being, at that time, in Charleston, a distance of nine miles from the Island, while the facilities of passage and re-passage were very far behind those of the present day. Upon reaching the hut I rapped, as was my custom, and getting no reply, sought for the key where I knew it was secreted, unlocked the door and went in. A fine fire was blazing upon the hearth. It was a novelty, and by no means an ungrateful one. I threw off an overcoat, took an arm-chair by the crackling logs, and awaited patiently the arrival of my hosts. Soon after dark they arrived, and gave me a most cordial welcome. Jupiter, grinning from ear to ear, bustled about to prepare some marsh-hens for supper. Legrand was in one of his fits-how else shall I term them?-of enthusiasm. He had found an unknown bivalve, forming a new genus, and, more than this, he had hunted down and secured, with Jupiter's assistance, a scarabæus which he be...

Legrand pulls the other two into an adventure after deciphering a secret message that will lead to a buried treasure. The story, set on Sullivan's Island, South Carolina, is often compared with Poe's "tales of ratiocination" as an early form of detective fiction. Poe became aware of the public's interest in secret writing in 1840 and asked readers to challenge his skills as a code-breaker. He took advantage of the popularity of cryptography as he was writing "The Gold-Bug," and the success of the story centers on one such cryptogram. Modern critics have judged the characterization of Legrand's servant Jupiter as racist, especially because of his comical dialect speech. Poe submitted "The Gold-Bug" as an entry to a writing contest sponsored by the Philadelphia Dollar Newspaper. His story won the grand prize and was published in three installments, beginning in June 1843. The prize also included \$100, probably the largest single sum that Poe received for any of his works. "The Gold-Bug" was an instant success and was the most popular and most widely read of Poe's works during his lifetime. It also helped popularize cryptograms and secret writing.

Devils in Daylight *New Directions Publishing Corporation*

Now in paperback, a suspenseful early novella from "the outstanding Japanese novelist of this century" (Edmund White).

Edgar Allan Poe and the Masses *Princeton University Press*

Edgar Allan Poe has long been viewed as an artist who was hopelessly out of step with his time. But as Terence Whalen shows, America's most celebrated romantic outcast was in many ways the nation's most representative commercial writer. Whalen explores the antebellum literary environment in which Poe worked, an environment marked by economic conflict, political strife, and widespread foreboding over the rise of a mass audience. The book shows that the publishing industry, far from being a passive backdrop to writing, threatened to dominate all aspects of literary creation. Faced with financial hardship, Poe desperately sought to escape what he called "the magazine prison-house" and "the horrid laws of political economy." By placing Poe firmly in economic context, Whalen unfolds a new account of the relationship between literature and capitalism in an age of momentous social change. The book combines pathbreaking historical research with innovative literary theory. It includes the first fully-documented account of Poe's response to American slavery and the first exposé of his plot to falsify circulation figures. Whalen also provides a new explanation of Poe's ambivalence toward nationalism and exploration, a detailed inquiry into the conflict between cryptography and common knowledge, and a general theory of Poe's experiments with new literary forms such as the detective story. Finally, Whalen shows how these experiments are directly linked to the dawn of the

information age. This book redefines Poe's place in American literature and casts new light on the emergence of a national culture before the Civil War.

What follows is a strange tale of coded messages, hidden treasure, and uncanny prophecy that will both enthrall and baffle even the most perceptive readers. Part horror story, part detective fiction, The Gold Bug is an ingenious tale bearing all the hallmarks of Poe's extraordinary narrative skill.

King Pest *Lindhardt og Ringhof*

What would you get if you take Lewis Carroll's fairy-tale imagination and filter it through Edgar Allan Poe's terror-ridden and grotesque vision? Add a tint of humour and a pinch of satire and voilà – an allegorically nightmarish Last Supper, situated in a house, previously occupied by an undertaker. Parodying the Black Death, the short story indulges in farcical situations, abnormalities, and a lot of puns. The characters exist in a misshapen, surrealist reality that embraces and caricatures London's immoral middle-class particularities and pleasures. Come for the author, endure the grotesque, and relish the ending! Edgar Allan Poe (1809-1849) was an American poet, author, and literary critic. Most famous for his poetry, short stories, and tales of the supernatural, mysterious, and macabre, he is also regarded as the inventor of the detective genre and a contributor to the emergence of science fiction, dark romanticism, and weird fiction. His most famous works include "The Raven" (1945), "The Black Cat" (1943), and "The Gold-Bug" (1843).
