The Wolf at the Door

The acclaimed authors of Death by a Thousand Cuts argue that Americans care less about inequality than about their own insecurity. Michael Graetz and Ian Shapiro propose realistic policies and strategies to make lives and communities more secure. This is an age of crisis. That much we can agree on. But a

crisis of what? And how do we get out of it? Many on the right call for tax cuts and deregulation. Others on the left rage against the top 1 percent and demand wholesale economic change. Voices on both sides line up against globalization: restrict trade to protect jobs. In The Wolf at the Door, two leading political analysts argue that these views are badly mistaken. Michael Graetz and Ian Shapiro focus on what really worries people: not what the rich are making but rather their own insecurity and that of people close to them. Americans are concerned about losing what they have, whether jobs, status, or safe communities. They fear the wolf at the door. The solution is not protectionism or class warfare but a return to the hard work of building coalitions around realistic goals and pursuing them doggedly through the political system. This, Graetz and Shapiro explain, is how earlier reformers achieved meaningful changes, from the abolition of the slave trade to civil rights legislation. The authors make substantial recommendations for increasing jobs, improving wages, protecting families suffering from unemployment, and providing better health insurance and child care, and they guide us through the strategies needed to enact change. These are achievable reforms that would make Americans more secure. The Wolf at the Door is one of those rare books that not only diagnose our problems but also show us how we can address them.

This WWII espionage biography brings "one of America's greatest spies back to life" in a "story of derring-do and white knuckles suspense" (Patrick O'Donnell, author of Operatives, Spies, and Saboteurs) Virginia Hall left her comfortable Baltimore roots in 1931 with dreams of becoming a Foreign Service Officer, but her gender—and her wooden leg—kept her from pursuing politics. As Hitler advanced across Europe, she put her gift for languages to use with the British Special Operations Executive, a secret espionage organization. She was soon deployed to occupied France where she located drop zones, helped prisoners of war flee to England, and secured safe houses for agents. Soon, wanted posters appeared throughout France, offering a reward for Hall's capture. By 1942, Hall had to flee France via the only route possible: an arduous hike on foot through the frozen Pyrénées Mountains. Upon her return to England, the American espionage organization, the Office of Special Services, recruited her and sent her back to France disguised as an old peasant woman. While there, she was responsible for killing 150 German soldiers and capturing 500 others. Sabotaging communications and directing resistance activities, her brave work helped change the course of the war.

A trenchant analysis of how public education is being destroyed in overt and deceptive ways—and how to fight back "There's no more time for tinkering around the edges." —Betsy DeVos, 2018 "Rethink School" tour Betsy DeVos may be the most prominent face of the push to dismantle public education, but she is in fact part of a large movement that's been steadily gaining power and notching progress for decades—amassing funds, honing their messaging, and crafting policies. While support for public education today is stronger than ever, the movement to save our schools remains fragmented, variable, and voluntary. Meanwhile, those set on destroying this beloved institution are unified, patient, and well-resourced. In A Wolf at the Schoolhouse Door, Jennifer Berkshire and Jack Schneider, co-hosts of the popular education podcast Have You Heard, lay out the increasingly potent network of conservative elected officials, advocacy groups, funders, and think tanks that have aligned behind a radical vision to unmake public education. They describe the dogma underpinning the work of the dismantlers and how it fits into the current political context, giving readers an up-close look at the policies—school vouchers, the war on teachers' unions, tax credit scholarships, virtual schools, and more—driving the movement's agenda. Finally they look forward, surveying the world the dismantlers threaten to build. As teachers from coast to coast mobilize with renewed vigor, this smart, essential book sounds an alarm, one that should incite a public reckoning on behalf of the millions of families served by the American educational system—and many more who stand to suffer from its unmaking.

"As a little boy, I had a dream that my father had taken me to the woods where there was a dead body. He buried it and told me I must never tell. It was the only thing we'd ever done together as father and son, and I promised not to tell. But unlike most dreams, the memory of this one never left me. And sometimes...I wasn't altogether sure about one thing: was it just a dream?" When Augusten Burroughs was small, his father was a shadowy presence in his life: a form on the stairs, a cough from the basement, a silent figure smoking a cigarette in the dark. As Augusten grew older, something sinister within his father began to unfurl. Something dark and secretive that could not be named. Betrayal after shocking betrayal ensued, and Augusten's childhood was over. The kind of father he wanted didn't exist for him. This father was distant, aloof, uninterested... And then the "games" began. With A Wolf at the Table, Augusten Burroughs makes a quantum leap into untapped emotional terrain: the radical pendulum swing between love and hate, the unspeakably terrifying relationship between father and son. Told with scorching honesty and penetrating insight, it is a story for anyone who has ever longed for unconditional love from a parent. Though harrowing and brutal, A Wolf at the Table will ultimately leave you buoyed with the profound joy of simply being alive. It's a memoir of stunning psychological cruelty and the redemptive power of hope.

Moving from the peculiarities of Florida to liminal spaces of travel in Mexico City, Sicily, and Iceland, I Hold a Wolf by the Ears is uncannily attuned to our current moment, and to the fears we reveal to no one but ourselves. In "Lizards," a man mutes his wife's anxieties by giving her a LaCroix-like seltzer laced with sedatives. In the title story, a woman poses as her more successful sister during a botched Italian holiday, a choice that brings about strange and destructive consequences, while in "Karolina," a woman discovers her prickly ex-sister-in-law in the aftermath of an earthquake and is forced to face the truth about her violent brother. I Hold a Wolf by the Ears presents a collection of women on the verge, trying to grasp what's left of life: grieving, divorced, and hyperaware, searching, vulnerable, and unhinged, they exist in a world that deviates from our own only when you look too closely. With remarkable control and transcendent talent, van den Berg dissolves, in the words of the narrator of "Slumberland," "that border between magic and annihilation," and further establishes herself as a defining fiction writer of our time.

Don't miss this thrilling installment in Charlie Adhara's suspenseful paranormal mystery series, Big Bad Wolf. Agent Cooper Dayton never thought anything could be harder than solving murders. Until he had to plan a wedding. After taking down an old adversary, Agent Cooper Dayton of the Bureau of Special Investigations has earned a break. Not that planning a wedding to his sexy shifter partner, Oliver Park, is necessarily stress free, but it's better than worrying about the ominous warning, delivered months ago, that Cooper's life is in danger. When he's dragged to an event by his family, Cooper braces for an awkward evening, but instead finds himself in the middle of an ugly feud between Park's ex and a rebel pack leader. What was supposed to be a quick outing turns into a full-blown murder investigation after the pack leader ends up dead, Park's ex goes missing, and Cooper and Park are sent a series of disturbing wedding gifts that are somehow connected to it all. The list of potential suspects is long, and with the bodies piling up, Cooper must turn to the one person he trusts the least: the villain he's already put behind bars once and who has nothing to lose by lying and everything to gain if Cooper is out of the picture—for good. His sister insists that’s not how it’s supposed to go. He says his version is better: “Nothing bad happens in my story.” But when his sister walks away, it’s time to reconsider. Are his stories boring? Why does it seem like there’s always something missing? True fact about stories: they need a bit of bad to be good!

The Wolf at the Door *Peter Lang*
The Wolf at the Door explores the remarkable formal and substantive patterns of cinematic discourse on Germany and the Holocaust in Stanley Kubrick's films. It is the first book on Kubrick to place his cinema into the full context of his life and times - his Jewish past, early years spent under the shadows of fascism and war, and his 1957 marriage into a German family of artists and filmmakers - all provoked his deeply ambivalent preoccupation with the history of Nazi Germany and the Holocaust. The Wolf at the Door draws on intensive study of all of Kubrick's films, interviews with members of Kubrick's immediate family, and archival research in the United States, Germany, the Netherlands, Poland, and Israel.

When the Wolf is at the Door *LA Vida Press*
We have all heard that the truth shall make us free. We have all longed for that freedom from suffering and tragedy. Many have actively pursued what "the truth" actually is and many have found the answers they sought. Yet, we often find ourselves confused as to how to apply the understandings we have achieved. "Now that I know, how do I use that knowledge to find lasting freedom? What are my responsibilities? Are they difficult? Can I hope to reach the goal of health, harmony and happiness?" I have found those answers to be as near as the heart that beats within us. And equally as simple to understand. This then is a path of healing. Whether it is yourself you seek to heal, or another for whom you pray. It is a path so simple we have missed it as we sought through the maze of religious traditions and man-made doctrines. Let the Spirit and Love of God take you by the hand as your read through these pages, and let Him lead you to freedom and safety. This is the third book in a series concerning healing. The first book, Of Monkeys and Dragons: Freedom from the Tyranny of Disease, is a chronicle of my earliest, tentative steps towards understanding principles necessary to achieve permanent healing of anything that afflicts mankind. The second, The God that We've Created: The Basic Cause of All Disease, outlines the truths that must be known to counter what we have been taught throughout the centuries, which has supported the pain and suffering of mankind. And now this third book??a simple "how-to" for all who have followed this path.
