Most of the time it's not a problem. But if the photos and videos you want to use are HEIF (High Efficiency Image File) or HEVC (High Efficiency Video Codec) files, you might see a message in the Photos app Video Editor that says "You need an extension to use this file." There are three different ways to fix this.

Photos app Video Editor error: Can't view this file type

The default program for that file type opens, where you can enter any text or data you want. When you close the program, any added content or changes appear in your Word document or email message. If you want the new file to appear as a clickable icon, rather than the first page of your new file, select Display as icon .
