Comparative politics is a field in political science characterized either by the use of the comparative method or other empirical methods to explore politics within countries. Substantively, this can include questions relating to political institutions, political behavior, conflict, and the causes and consequences of economic development. When applied to specific fields of study, comparative politics may be referred to by other names, such as comparative government.

Comparative-historical analysis (CHA) has a long and distinguished pedigree in political science. In a discipline in which a succession of different movements has advocated new approaches promising more powerful theory or new methodologies for more rigorously testing theory, or both, CHA has stood the test of time.

**Comparative-historical analysis in contemporary political ...**

Field experiments on voter mobilization enable researchers to test theoretical propositions while at the same time addressing practical questions that confront campaigns. This confluence of interests has led to increasing collaboration between researchers and campaign organizations, which in turn has produced a rapid accumulation of experiments on voting.

**Voter Mobilization, Experimentation, and Translational ...**

Introduction. Voter mobilization field experiments, often referred to as “get out the vote,” or GOTV field experiments, are targeted efforts—mostly by scholars but occasionally in coordination with campaigns—to apply experimental methods to the study of voter turnout. These studies are conducted in the “real world,” meaning voters are randomly assigned to receive a treatment, or no treatment.
