CICS (Customer Information Control System) is the world-class transaction processor that's used for interactive transactions on IBM mainframe computers. The vast majority of the CICS code for those applications is in the form of CICS commands that are embedded within COBOL programs, which is why this book is called CICS for the COBOL

Programmer.

### **Murach's CICS for the COBOL Programmer**

This is a half-decent book on mainframe COBOL programming, and at least gives the basic structure of how to put together working programs. But it assumes far too much, by not giving examples of much of what is vaunted within the pages.
