All three books in the American Book Award-winning *Memory of Fire Trilogy* available in a single volume for the first time. Eduardo Galeano's *Memory of Fire Trilogy* defies categorization—or perhaps creates its own. It is a passionate, razor-sharp, lyrical history of North and South America, from the birth of the continent's indigenous peoples through the end of the twentieth century. The three volumes form a haunting and dizzying whole that resurrects the lives of Indians, conquistadors, slaves, revolutionaries, poets, and more. The first book, *Genesis*, pays homage to the many origin stories of the tribes of the Americas, and paints a verdant portrait of life in the New World through the age of the conquistadors. The second book, *Faces and Masks*, spans the two centuries between the years 1700 and 1900, in which colonial powers plundered their newfound territories, ultimately giving way to a rising tide of dictators. And in the final installment, *Century of the Wind*, Galeano brings his story into the twentieth century, in which a fractured continent enters the modern age as popular revolts blaze from North to South. This celebrated series is a landmark of

contemporary Latin American writing, and a brilliant document of culture.

"A book as fascinating as the history it relates . . . Galeano is a satirist, realist, and historian." —Los Angeles Times For centuries, Europe's imperial powers brutally exploited the peoples and resources of the New World. While soldiers of fortune marched across continents in search of El Dorado, white settlers established plantations and trading posts along the coasts, altering the land and bringing disease and slavery with them. In the midst of a bloody collision of civilizations, the West has birthed new societies out of the old. In the second book of his Memory of Fire trilogy, Eduardo Galeano forges a new understanding of the Americas, history retold from a diverse collection of viewpoints. Spanning the end of empire and the age of revolutions, Faces and Masks brilliantly collects the strands of the past into an iridescent work of literature.

There could be no greater vindication of the wonders of the lands and people of Latin America than Memory of Fire." —The Washington Post Eduardo Galeano's monumental three-volume retelling of the history of the New World begins with Genesis, a vast chain of legends sweeping from the birth of creation to the era of savage colonialism. Through lyrical

prose and deep understanding, Galeano (author of the celebrated *Open Veins of Latin America*) recounts creation myths, pre-Columbian societies, and the brutality of conquest, from the Andes to the Great Plains.
