## Documentation Styles

A documentation style is a standard approach to the citation of sources that the author of a paper has consulted, abstracted, or quoted from. It prescribes methods for citing references within

the text, providing a list of works cited at the end of the paper, and even formatting headings and margins. Different academic disciplines use different documentation styles; your instructor may require you to use a particular style, or may allow you use one of your choosing.

**About

## **Documentation Style: Documentation Styles**

Introduction Most

academic writing projects require you to gather, evaluate, and use the work of others. When you draw upon the work of others, you must give proper credit. Failure to do so constitutes plagiarism which UW-Madison considers to be a serious breach of academic integrity. If you learn a few basic rules, you can...

Key Point: Use the guide as a style reference when writing developer documentation. This style guide provides a set of editorial guidelines for anyone writing developer documentation for Google-related projects. Note: precedes terms and

guidelines specific to Android documentation. Note: precedes terms and guidelines specific to Google Cloud documentation.

### **Google developer documentation style guide | Google Developers**

Documentation is any communicable material that is used to describe, explain or instruct regarding some attributes of an object, system or procedure, such as its parts, assembly, installation, maintenance and use. Documentation can be provided on paper, online, or on digital or analog media, such as audio tape or CDs. Examples are user guides, white papers, online help, and quick-reference guides.

Paper or hard-copy documentation has become less common. Documentation is often distributed via web
