A Proven System for Earning Double-Digit Returns *John Wiley & Sons*

2016 Book of the Year award winner by the Institute for Financial Literacy "Set it and

forget it" investing, with less risk and higher returns Get Rich with Dividends is the bestselling dividend-investing book that shows investors how to achieve double-digit returns using a time-tested conservative strategy. Written by a nineteen-year veteran of the equity markets, this invaluable guide shows you how to set up your investments for minimal maintenance and higher returns, so you can accumulate wealth while you focus on the things that matter. Using the author's proprietary 10-11-12 system, you'll learn how to generate the income you need on a quarterly or even monthly basis. You'll discover the keys to identifying stocks that will return twelve

percent or more every year, and how to structure your investments for greater security and financial well being. This method is so easy to use, you'll want to teach it to your children early to set them up for financial independence and help them avoid the problems that plagued many investors over the past decade. Dividends are responsible for 44 percent of the S&P 500's returns over the last eighty years. They represent an excellent opportunity today, especially for investors who have been burned in recent meltdowns and are desperate for sensible and less risky ways to make their money grow. This book describes a framework that allows investors to reap higher returns with a low-to-no maintenance plan. Set up an investment system that requires little to no maintenance. Achieve double-digit average annualized returns over the long term. Focus on other things while your money works for you. Increase returns even with below-average growth in share price. Market risk is high and interest rates are low, making it a perfect time to get started on a more sensible wealth generation strategy. With expert guidance toward finding and investing in these unique but conservative and proven stocks, *Get Rich with Dividends* is the only book on dividend investing you'll ever need.

"Rick Stooker is on the right track. We also intend to pursue a

more income-oriented strategy in the years to come. Capital gains are subject to both the risk of a decline in economic fundamentals and a deterioration in market psychology. High-quality dividends and income are subject only to the former, and that makes a big difference in modeling your portfolio returns in retirement." -- Charles Lewis Sizemore CFA, Senior Analyst HS Dent Investment Management, LLC <http://www.hsdent.com/> "I am a Chartered Accountant in Canada and spent most of my career teaching in a community college. "Over the years, I have used various "plans," with varying degrees of success, but had never given much thought to dividends, so I fell prey

to the hype about capital gains. So what was I thinking? Should have been investing for dividends. "I also learned about some new investment vehicles, and got a "heads up" on some investments that I was aware of, but put on the back burner. "Wish I knew about all this stuff when I was in my 20's, or at least paid attention to the theories involved in my 40's." --- Dennis Wilson "What an eye-opener!!! "I had heard about REITs, MLPs, BDCs, but you really explained their advantages and disadvantages. Thank you, Rick. You have set me on the right path to generate a steady income stream." -- Kenny H While the financial markets are collapsing . . . The Little Book of Big Dividends

A Safe Formula for Guaranteed Returns *Wiley*

Everyone needs to invest, but where do you invest during bear markets? The massive stock declines over the past year have eroded savings, but this doesn't mean you should stuff your money under a mattress. It needs to be put to work getting some return so that it will grow. Smart investors will turn to high dividend paying stocks to get a stable and growing stream of

income. Dividend investing—that provides an income beyond any gain in the share price—may be the investor's best weapon. Dividends are safe, largely reliable, and maybe at their cheapest levels in many years. While the best paying dividend stocks of recent years, such as financials, took a huge beating in 2008, opportunities will abound in 2010 and beyond—if you know where to look. In *The Little Book of Big Dividends*, dividend stock expert Chuck Carlson presents an action plan for dividend-hungry investors. You'll learn about the pitfalls, how to find the opportunities, and will learn how to construct a portfolio that generates big, safe dividends easily through the BSD (Big, Safe Dividends) formula. If you're a bit adventurous, Carlson has you covered, and will teach you how to find big, safe dividends in foreign stocks, preferred stocks, ETFs, real estate investment trusts, and more. Contains the simple tools, strategies, and recommendations for finding big, safe dividends. Helps you put a complete portfolio together that pays dividends every month. Show you the top dividend paying stocks with their dividend payment dates. It doesn't get any easier than this, and in these turbulent times, you can't afford to ignore the power of dividends. Read *The Little Book of Big Dividends* and gain a

better perspective of how you can protect yourself for the future.

Dividends Still Don't Lie

The Truth About

Investing in Blue Chip Stocks and Winning in the Stock Market *John Wiley & Sons*

A timely follow-up to the bestselling classic *Dividends Don't Lie* In 1988 Geraldine Weiss wrote the classic *Dividends Don't Lie*, which focused on the Dividend-Yield Theory as a method of producing consistent gains in the stock market. Today, the approach of using the dividend yield to identify values in blue chip stocks still outperforms most investment methods on a risk-adjusted basis. Written by Kelley Wright, Managing Editor of *Investment Quality Trends*, with a new Foreword by Geraldine Weiss, this book teaches a value-based strategy to

investing, one that uses a stock's dividend yield as the primary measure of value. Rather than emphasize the price cycles of a stock, the company's products, market strategy or other factors, this guide stresses dividend-yield patterns. Details a straightforward system of investing in stick-to-quality blue-chip stocks with reliable dividend histories Discusses how to buy and sell when dividend yields instruct you to do so Investors looking for safety and transparency will quickly discover how dividends offer the yields they desire With *Dividends Still Don't Lie*, you'll gain the confidence to make sophisticated stock market decisions and obtain solid value for

your investment dollars.

Intelligent Investing

Your Guide to a Growing Retirement Income

How can you help shield yourself from a volatile stock market swings during retirement? Dividend investing! Many think that growing the value of an investment portfolio is most crucial to a comfortable retirement. While accumulating funds that grow before you reach retirement is essential, you also need a flow of income after you retire. Investing in solid

companies that provide dividends regardless of the daily ups and downs of the market is essential to generating income during retirement. *Intelligent Investing: Your Guide to a Growing Retirement Income* will help you understand why and how to retire intelligently. The book will equip you with the knowledge you need to get started, as well as provide an investment strategy that is easy to follow. By investing intelligently, you can maintain your lifestyle in retirement by increasing your income. If you don't grow your income, inflation will chip away at it over time, and you'll slowly get poorer. Think about it: \$10,000 in 1980 bought much more than that same

\$10,000 buys today. This book is for anyone who has been accumulating capital and financial assets throughout their career. You will learn why and how to Invest in companies that grow their dividends, providing you with income in your retirement, so you're not spending the value of your portfolio. If you're ready to learn how to have the retirement you deserve, this book is for you. Reviews for *Intelligent Investing: Your Guide to a Growing Retirement Income* by Steve Booren "I've long believed that investors shouldn't rely on uncertain capital gains to live on during retirement. Steve Booren's *Intelligent Investing* reminds us

that a great way to work toward a prosperous retirement is with a portfolio of dividend stocks that seek to stay ahead of inflation with a goal of providing steadily growing income over time." - Matthew Paulson - Founder, MarketBeat - Author, Automatic Income

"Intelligent Investing is a straightforward guide to getting ready for and thriving in retirement. Like the title suggests, the strategy detailed in the book is a smart way to prepare for your financial future. In fact, I'd say it's the most intelligent way." - Marc Lichtenfeld - Author, You Don't Have to Drive an Uber in Retirement and Get Rich with Dividends

"There are hundreds of books about retirement planning. Steve Booren's book, Intelligent Investing, covers the complex topic of retirement income in an understandable, easy-to-read way. Real client scenarios combined with his investment strategy, developed over decades, will inspire thought and conversation about the most important steps in determining your financial future." - Jim Putnam - Chairman of the Board, LPL Financial

"Young investors should focus on growth in dividends and position themselves to invest in dividend stocks that have a high likelihood of increasing dividends in the future. In his book, Steve Booren explains why growing income through intelligent investing is

key to retirement success." - Millionaire Mob - Author, Dividend Investing Your Way to Financial Freedom: A Guide to Live Off Dividends Forever "What's the difference between being rich and being wealthy? If richness is fleeting, wealth is lasting. The methods Steve discusses in Intelligent Investing can help to create and preserve lasting wealth." - Lee Brower - Founder, Empowered Wealth - Author, The Brower Quadrant

All About Dividend Investing, Second Edition *McGraw Hill Professional*

The safe, profitable alternative to a losing bet While many of us were learning the hard way that a buy-and-

hope strategy is bound to fail, Don Schreiber, Jr., and Gary E. Stroik were busy updating *All About Dividend Investing*--the proven answer to a highly flawed, totally outdated, but all-too-common investing approach. This back-to-basics book argues that dividend-paying stocks, not growth stocks, form the best foundation for any portfolio. Used strategically, dividends are your best bet for safe, profitable investing. Why? Three simple facts: Dividends are low risk. Dividends work in bull markets. Dividends work in bear markets. Whether you're a veteran investor or a beginner, *All About Dividend Investing, Second Edition*, provides the facts you need about:

Tax advantages of dividend-paying stocks
 Dividend ratios and other key stock information
 Dividend portfolio design
 Managing risk and protecting gains
 Dividend-based mutual funds and ETFs
 Current historical analyses of market cycles

The Great American Dividend Machine

How an Outsider Became the Undisputed Champ of Wall Street *Humanix Books*

Bill Spetrino was just an ordinary accountant more than 20 years ago when he discovered the best investment secret ever. Bill calls his secret "the dividend machine" -- and he has been sharing his secrets with hundreds

of thousands of investors who have subscribed to his popular Dividend Machine newsletter, rated by Hulbert Digest as the #1 low risk investment letter. But many readers asked Bill to write a book about his secret and how ordinary investors can become millionaires just like him. Bill did just that. Now his new The Great American Dividend Machine reveals his own story, and how he went from becoming a middle-class accountant to having a net worth exceeding more than \$5 million! Traders who jump from stock to stock in the hunt for a major Wall Street score often lose money or, at best, break even. That's not an acceptable fate for the retirement nest

egg or for Bill. Instead, true investors trust Bill Spetrino's proven advice: "Keep investments boring and the rest of life fun and exciting." By valuing safety and income above all else, Spetrino guides the reader through the process of unearthing true bargains in the marketplace. Adhering to the author's model, The Great American Dividend Machine portfolio is composed of stocks that he picks using his unique system. The companies that pass Spetrino's rigorous, multi-step vetting process must have a number of key characteristics, such as: Resonant brand names Strong, competitive advantages in their industries Pristine balance sheets Capital

to help survive and thrive in difficult markets Bill believes anyone can become a millionaire by ignoring the Wall Street pros and using his time-tested strategies.

Dividend Growth Machine

How to Supercharge Your Investment Returns with Dividend Stocks *Createspace*

Independent Publishing Platform

Do you want to improve your investment returns while taking less risk? In Dividend Growth Machine, investment professional Nathan Winklepleck will show you what makes dividend growth investing such a powerful investment strategy. What You Will

Learn Through easy-to-understand examples and practical tips, Nathan will show you how anyone can achieve financial independence and investment success through dividend investing. In these pages, you'll discover:

- Why traditional investment strategies fail.
- The most dangerous investment strategy out there right now (and how to avoid it).
- How to dramatically improve your investment results while taking less risk.
- How to outperform most "passive index" strategies.
- How to practically guarantee a positive investment return over the long-term.
- Why dividends are the safest, most consistent, and common sense way to build wealth.
- What dividends are and where they come from.
- How dividends can replace your paycheck in retirement.
- Who Should Read It This book is for anyone who wants to build wealth and improve their investment returns. It's not complicated. There are no fancy formulas or Wall Street mumbo jumbo.
- Beginning investors who just want to better understand how to make money investing in stocks.
- Experienced investors who have been burned by other investment strategies.
- Anyone who is afraid to lose money investing in the stock market.
- Those nearing retirement who wants to generate passive, consistent, and growing income.
- Retired people who are tired of getting 1%

returns in their checking accounts and 3% (or less) from bond funds. - Anyone considering buying an annuity. Who Should NOT Read It - Those looking for "get-rich-quick" investing strategies. This strategy is about consistently and predictably growing your wealth over long time periods (20+ years). - This book is targeted to people with little-to-no experience with dividend investing or investing in general. If you have a lot of experience with dividend investing, there probably isn't much here for you. - Annuity salespeople. If you want to sell an annuity, don't read this book. And definitely don't let your potential victims (errr... "clients") read it.

Testimonials "The book is well written and understandable for anyone with even minimal investing experience." -JCS "One of the best books on dividend growth investing. I wish I had known about this 10 years ago as I compared my tax-free bonds versus dividend growth investing would have doubled my portfolio if I had followed his books advice." -David "An investment strategy that makes sense. The book is short and to the point. Reading it will be time well spent." "I'm already employing the strategy in my own investments, but this book gave me a lot of confidence that I'm absolutely doing the right thing. It is short, but there's every bit as

much content as a much longer book." What Are You Waiting For? If you want to improve your investment returns, spend less time worrying about your money, and strive for complete financial independence - this book is for you!

Infinity Investing

How the Rich Get Richer and How You Can Do the Same *Forbesbooks*

YOUR ROAD MAP TO FINANCIAL FREEDOM

Become Rich in a Stress-free Manner Through Easy-to-understand Examples and Practical Tips to Supercharge Your Investment Returns and Achieve the Financial Independence.

Are you looking to build up wealth for your family and building riches toward retirement? Do you want to improve your investment returns while taking less risk? Are you looking to find new, effective ways to earn a passive income, getting paid month after month from dividend stocks, but

you have no idea how to go about doing it yourself? Well then look no further because this book to 'Dividend Investing' is the time-tested investment strategy you've just been yearning for. These days it seems harder to build wealth towards retirement and lastly to enjoy the fruits of centuries of labor. Perhaps it is due to inflation (greater prices) for health care, education, living costs, rent, and so many other expenses that are needed. Big and stable pensions were the norm when our parents worked. You would be compensated with a heavy pension if you worked hard and remained with a business for many decades. Well, these days are over, sadly.

Companies cut expenses wherever they can to demonstrate better earnings. Unfortunately we have to bring retirement into our own hands for this generation. Now that may seem daunting, but if you save cash, invest it correctly. You can exceed any pension owned / owned by your parents or their grandparents. Saving for retirement appears almost IMPOSSIBLE. In your bank account, you scarcely get any interest. I don't understand about you, but on my saving account I get less than 0.1 percent interest! In view of this issue, let me ask you three questions: 1. What if I informed you that there was a good investment strategy that could provide decades of predictable cash flow? 2. What if I told you there was an investment strategy that would enable you to live 2% to 5% of your lifetime portfolio without having to sell stock or touch your principal? 3. What if I told you this one approach was pursued by the world's most promising investor. Hint: Warren Buffett is here, and he's worth more than \$75 billion! That's 75 followed by 9 zeroes! Some of you might believe it's a super-secret approach that can only be accessed by hedge funds or ultra-rich one-percenters. That is not at all true! You too can implement this strategy with enough learning and study and really alter your life. Okay, prepared for this

incredible investment strategy? It's called investing dividend. This isn't a magic formula to quickly get wealthy. Building a well-diversified portfolio that performs well in all market environments takes years. And to ensure that things are running smoothly, it needs regular portfolio surveillance. In this book we'll cover: Find out how to read financial statements and determine which companies are a good investment. Get the secret trick you can use to reinvest dividends tax-free. We'll teach you all the jargon you need to know to navigate the dividends landscape. Learn the top mistakes made by new dividend investors and how to avoid them. What's a

REIT or an MLP? After reading this book, you'll have all the answers. Compare dividend investing in regular investing, and learn the advantages of dividends. Suggestions on how to best set up a dividend portfolio. This book will rapidly take you up to speed even if you're a full beginner. So, what are you waiting for? The Millionaire

Master Plan

Your Personalized Path to Financial Success *Hachette UK*

The Millionaire Master Plan is a unique and fresh approach as to how individuals can not only get a sense of where they stand on the spectrum of personal wealth, but more importantly, how they can learn to ascend from their present state to a higher level. Roger James Hamilton, himself a highly successful entrepreneur and successful investor, has designed nine steps - from barely surviving - all the way to the highest level of ultimate wealth for life - and he lays out his nine steps in an easy-to-understand color-coded manner that

ranges from red (barely living paycheck-to-paycheck) all the way to ultra-violet (where generating income is simply no longer a worry). Along the way, the reader first takes a quick test to determine where one is on the financial spectrum, and then Hamilton provides key insights and practical tips as to how one can progress to the next level. You track your progress by ascending from one color to the next.

The Future for Investors

Why the Tried and the True Triumphs Over the Bold and the New *Currency*

The new paradigm for investing and building wealth in the twenty-first century. The

Future for Investors reveals new strategies that take advantage of the dramatic changes and opportunities that will appear in world markets. Jeremy Siegel, one of the world's top investing experts, has taken a long, hard, and in-depth look at the market and the stocks that investors should acquire to build long-term wealth. His surprising finding is that the new technologies, expanding industries, and fast-growing countries that stockholders relentlessly seek in the market often lead to poor returns. In fact, growth itself can be an investment trap, luring investors into overpriced stocks and overly competitive industries. The Future

for Investors shatters conventional wisdom and provides a framework for picking stocks that will be long-term winners. While technological innovation spurs economic growth, it has not been kind to investors. Instead, companies that have marketed tried-and-true products for decades in slow-growth or even declining industries have superior returns to firms that develop “the bold and the new.” Industry sectors many regard as dinosaurs—railroads and oil companies, for example—have actually beat the market. Professor Siegel presents these strategies within the context of the coming shift in global economic power and the demographic age wave that will sweep the United States, Europe, and Japan. Contrary to the popular belief that these economic and demographic trends doom investors to poor returns, Professor Siegel explains the True New Economy and how to take advantage of the coming surge in invention, discovery, and economic growth. The faster the world changes, the more important it is for investors to heed the lessons of the past and find the tried-and-true companies that can help you beat the market and prosper in the years ahead.

William J. Bernstein promises to lay out an investment strategy that any seven year old could understand and will take just 15 minutes of work per year. He also promises it will beat 90% of finance professionals in the long run, but still make you a millionaire over time. Bernstein is addressing young Americans just embarking on their working careers.

Bernstein advocates saving 15% of one's salary starting no later than age 25 into tax-sheltered savings plans (IRA or 401(k) in the U.S., RRSPs or Registered Pension Plans in Canada), and divvying up the money into just three mutual funds: a U.S. total stock market index fund, an international stock market index fund and a U.S. total bond market index fund. For millennials, saving 15% of salary is the financial equivalent of dying, which is why Bernstein titles his document 'If you can.'

Get A Steady 8% Per

Year Even In A Zero Interest Rate World: Featuring The 13 Best High Yield Stocks, REITs, MLPs And CEFs For Retirement Income

Why should you settle for 0.01% interest in a savings account? Or be OK with a treasury bill which pays less than 2% per year? Back in 1990, you could have retired comfortably with a nest egg of \$500,000. All you had to do was invest that money into a Treasury Bill, and you would have earned a steady 8% every year. That's \$40,000 deposited into your account every single year from what most experts would consider the world's most stable investment. These days, if you invest \$500,000 into the same Treasury Bill, you

won't be getting 8% per year, nowhere near that. In 2020, a Treasury Bill paid just 1.25% every year. That's just \$6,250 income per year on a \$500,000 investment. And you can't live anywhere in the US, UK or Canada on \$6,250 per year. So what to do instead? This book will not only show you why you can't rely on government bonds for your retirement. It will also show you exactly what to do instead (Hint: It doesn't involve relying on social security) Here's just a fraction of what you'll learn inside: - How to get rich in real estate, without owning any properties - Page 123 - The "yield trap" how to avoid bad value dividend stocks - Page 68 - Get in before March 29th to profit from this "tollbooth" oil opportunity. This company's business models thrives even if oil prices are less than \$10 a barrel - Page 137 - Better than Tesla? This renewable energy company is booming right now, and continues to reward investor with large distributions - Page 138 - Instead of paying \$3,200 for a single share of Amazon. Most people believe that the true key to becoming ultra-wealthy lies in some sort of

"secret," a kind of well-kept secret that's extremely "hush-hush," and only realized by a small amount of the elite, or a privileged few. But, actually, this isn't the case at all. In fact, these super-rich individuals realize that their money needs to work for them and so they learn how to take what are known as "calculated" risks. The super-rich are definitely not psychics, nor do they have a "magic" secret that they hold close to their own kind. In fact, their real secret lies in the fact that they know what simple investing mistakes should be avoided. And, in truth, these mistakes are common knowledge, even among those investors who are not particularly wealthy at all. Investing properly is a guided, purposeful tool for building and adding to wealth, but it is not only for the rich. Actually, anyone can get started quite easily, and there are multiple avenues that make it easy to begin, with small amounts to start up a portfolio. Additionally, what differentiates using investment (as opposed to gambling) is that it takes a period of time for the "magic" to happen. Therefore, it is not a get-rich-quick scheme, at all. I want us to be clear on that point from the get-go. By the end of this book, you'll have a great understanding of what investing is, and you will know how the magic of compounding works too. We'll take a look at other options that you might find useful, so then you'll

have the knowledge you need before you get started with your own investing. Again, thank you for joining me here; it's my pleasure to guide you through this important information. I believe that knowledge is power, and I hope that you'll feel more comfortable once you get the real gist of how it all works, and how it can work really well for you.
