So, what are you waiting on? Start your analysis experience today with electronic Not A Drop To Drink publication downloads. With numerous titles and styles to select from, the opportunities are unlimited. Pleased reading!

Not a Drop to Drink *Harper Collins*

Fans of classic frontier survival stories, as well as readers of dystopian literature, will enjoy this futuristic story where water is worth more than gold. New York Times bestselling author Michael Grant says Not a Drop to Drink is a debut "not to be missed." With evocative, spare language and incredible drama, danger, and romance, Mindy McGinnis depicts one girl's journey in a frontierlike world not so different from our own. Teenage Lynn has been taught to defend her pond against every threat: drought, a snowless winter, coyotes, and most important, people looking for a drink. She makes sure anyone who comes near the pond leaves thirsty—or doesn't leave at all. Confident in her own abilities, Lynn has no use for the world beyond the nearby fields and forest. But when strangers appear, the mysterious footprints by the pond, nighttime threats, and gunshots make it all too clear Lynn has exactly what they want, and they won't stop until they get it. . . . For more in this gritty world, join Lynn on an epic journey to find home in the companion novel, *In a Handful of Dust*.

TiVo Hacks

100 Industrial-Strength Tips & Tools *"O'Reilly Media, Inc."*

TiVo Hacks helps you get the most out of your TiVo personal video recorder. Armed with just a screwdriver and basic understanding of PC hardware (or willingness to learn), preeminent hackability awaits. This book includes hacks for changing the order of recorded programs, activating the 30-second skip to blaze through commercials, upgrading TiVo's hard drive for more hours of recording, use of TiVo's Home Media Option to remotely schedule a recording

via the Web, log in to the serial port for command-line access to programming data, log files, closed-captioning data, display graphics on the TiVo screen, and even play MP3s. Readers who use advanced hacks to put TiVo on their home network via the serial port, Ethernet, USB, or wireless (with 802.11b WiFi) will watch a whole new world open up. By installing various open source software packages, you can use TiVo for mail, instant messaging, caller-ID, and more. It's also easy to run a web server on TiVo to schedule recordings, access lists of recorded shows, and even display them on a web site. While TiVo gives viewers personalized control of their TVs, *TiVo Hacks* gives users personalized control of TiVo. Note: Not all TiVos are the same. The original TiVo, the Series 1, is the most hackable TiVo out there; it's a box thrown together with commodity parts and the TiVo code is running on open hardware. The Series 2 TiVo, the most commonly sold TiVo today, is not open. You won't see hacks in this book that involve modifying Series 2 software.

Not a Drop to Drink

Water for a Thirsty World *National Geographic Books*

Explores the important connections between human activity and the water cycle and shows how researchers are working to understand such issues as how climate change affects water supplies and how the oceans can help solve the water crisis.

Water Wars

Drought, Flood, Folly, and the Politics of Thirst *Penguin*

Updated with new material Every day, we hear alarming news about droughts,

pollution, population growth, and climate change—which threaten to make water, even more than oil, the cause of war within our lifetime. Diane Raines Ward reaches beyond the headlines to illuminate our most vexing problems and tells the stories of those working to solve them: hydrologists, politicians, engineers, and everyday people. Based on ten years of research spanning five continents, *Water Wars* offers fresh insight into a subject to which our fate is inextricably bound.

Not a Diet Book: Lose Fat. Gain Confidence. Transform Your Life

Are you ready to change your life? Are you sick of always wearing black and getting undressed in the dark? Are you fixated with a number on the scales? Are you afraid to step into the gym and commit to a routine? Is your confidence at an all-time low? Is all of this having a negative impact on your life, relationships and happiness? James Smith is armed with every tool you'll ever need to achieve incredible results - from dieting, training and staying in shape to identifying the fads, cons and nonsense that get in the way of genuine lasting progress. Learn to reset your current mindset and attitude towards your diet and training, with chapters covering: * Fat loss versus muscle gain * Metabolism and 'body types' * Protein targets and calorie tracking * Common fitness fallacies * Female fat loss * Supplements * Training versus exercising * The importance of sleep * Forming habits This book will put you back in control. It is not a fad diet or a short-term training plan. It will empower

you to adopt better habits that will allow you to take charge of your life.

Not a Drop to Drink

America's Water Crisis (and What You Can Do) *New World Library*

Water. We can't live without it. Not a Drop to Drink sounds the alarm, detailing the current state of emergency facing the U.S. water supply. From the parched High Plains to corporate boardrooms, Ken Midkiff explores water wars, privatization, American agriculture, and global warming. And what we can do to get a glass of water.

Water, Water Everywhere But Not a Drop to Drink

The False Promise of Virtual Water

Not a Drop to Drink . . . *Xlibris Corporation*

The trouble started when the water in the little college town of Wickstead, Pennsylvania, was found to be tainted. This aroused the citizens, led by a college professor and a decorated war veteran, Nick Adamson. He decides to go to war against the water companies. Nick is an eccentric character. He is under constant surveillance not only the local sheriff but also by the state police, who suspect him of being the illusive sniper who had earlier shot and wounded state officials after they had signed off on the senseless slaughter of dozens of blackbirds. The story hangs on whether or not they will finally arrest him.

Poems from the Asylum

Poetry anthology by Martha Nasch, annotated and arranged by Janelle Molony.

Lost in the Pacific, 1942: Not a Drop to Drink (Lost #1) *Scholastic Inc.*

World War II, October 21, 1942. A B-17 bomber drones high over the Pacific Ocean, sending a desperate SOS into the air. The crew is carrying America's greatest living war hero on a secret mission deep into the battle zone. But the plane is lost, burning through its final gallons of fuel. At 1:30 p.m., there is only one choice left: an emergency landing at sea. If the crew survives the impact, they will be left stranded without food or water hundreds of miles from civilization. Eight men. Three inflatable rafts. Sixty-eight million square miles of ocean. What will it take to make it back alive?

The Open Boat

"The Open Boat" is a short story by American author Stephen Crane. First published in 1897, it was based on Crane's experience of surviving a shipwreck off the coast of Florida earlier that year while traveling to Cuba to work

as a newspaper correspondent.

Fencing with the King: A Novel *W. W. Norton & Company*

A mesmerizing breakthrough novel of family myths and inheritances by the award-winning author of *Crescent*. The King of Jordan is turning 60! How better to celebrate the occasion than with his favorite pastime—fencing—and with his favorite sparring partner, Gabriel Hamdan, who must be enticed back from America, where he lives with his wife and his daughter, Amani. Amani, a divorced poet, jumps at the chance to accompany her father to his homeland for the King's birthday. Her father's past is a mystery to her—even more so since she found a poem on blue airmail paper slipped into one of his old Arabic books, written by his mother, a Palestinian refugee who arrived in Jordan during World War I. Her words hint at a long-kept family secret, carefully guarded by Uncle Hafez, an advisor to the King, who has quite personal reasons for inviting his brother to the birthday party. In a sibling rivalry that carries ancient echoes, the Hamdan brothers must face a reckoning, with themselves and with each other—one that almost costs Amani her life. With sharp insight into modern politics and family dynamics, taboos around mental illness, and our inescapable relationship to the past, *Fencing with the King* asks how we contend with inheritance: familial and cultural, hidden and openly contested. Shot through with warmth and vitality, intelligence and spirit, it is absorbing and satisfying on every level, a wise and rare literary treat.

... and Not a Drop to Drink

A Hard Look at America's Water Crisis

Protect Or Plunder?

Understanding Intellectual Property Rights *Zed Books*

The kinds of ideas, technologies, identification of genes, even manipulations of life forms that can be owned and exploited for profit by giant corporations is a vital issue for our times. The author argues that this Western-inspired, unprecedented widening of intellectual property concepts does not in fact stimulate human creativity and the generation of knowledge. Instead, it is being exploited by transnational corporations to increase their profits at the expense of the health of ordinary people and of the age-old knowledge

and independence of the world's farmers. Intellectual protection is being transformed into corporate plunder. Little wonder popular feeling runs so high against the WTO that polices this new intellectual order, and the pharmaceutical, biotech and other corporations that benefit from it.

Economic Principles

The Masters and Mavericks of Modern Economics *Simon and Schuster*

For nearly ten years, readers of the Sunday Boston Globe and newspapers around America have delighted in David Warsh's column, "Economic Principals." This collection shows why. Taken as a whole, Warsh's writings amount to a vast and colorful group portrait of the personalities who dominate modern economics -- from the luminaries to unknown soldiers to eccentrics who add sparkle to the tapestry. Partly a history of controversies in economics, partly an essay on the evolution of the field, *Economic Principals* offers a glimpse of one of the most important stories of our time: the metamorphosis of a priestly class of moral philosophers into the mathematical mandarins of today, whose ideas are reshaping society even as they reveal its workings in ever more subtle detail. Warsh first recounts the rise of the economic paradigm, deftly treating the rediscovery of Adam Smith and the centrality of markets. He then turns to the generation of economists for whom the Nobel Prize was created in 1969, the men who forged the modern field in a few years during and after World War II. Some, like Paul Samuelson and Milton Friedman, are well known to the public; others, like Trygve Haavelmo and George Dantzig, are less quickly recognized. But all have interesting stories which Warsh brings to light. Tracing the high tech revolution to the current generation, he sketches younger scholars such as Jeffrey Sachs, Martin Feldstein, and others less popularly known, who rule the field today. Marking

the most powerful applications of modern economics, Warsh explains how the ingenious "rocket scientists" of Wall Street are creating new markets and the business school wizards and leading corporate executives are reinventing the organization. Finally, in exploring the implications of modern economics, Warsh introduces us to scholars operating on the boundaries of the field, from Jane Jacobs to Noam Chomsky, and to the critics, like Donald McCloskey and Robert Reich, who have brought a bit of moral philosophy back into the economist's brave new world. At every step, Warsh maps the field with the journalist's eye for detail. Readers will see why he is considered one of the most consistently stimulating economic journalists in America today.

Avian Physiology *Springer Science & Business Media*

Not a Drop to Drink

CD-Rom with Teacher Guide

In a Handful of Dust *Harper Collins*

Fans of classic frontier survival stories, as well as readers of dystopian literature, will enjoy this futuristic story about an epic cross-country journey. In a Handful of Dust is set ten years after the first novel, Not a Drop to Drink, as a dangerous disease strikes the community where teenage Lucy lives. When her adoptive mother, Lynn, takes Lucy away from their home and friends in order to protect her, Lucy struggles to figure out what home means. During their journey west to find a new life, the two face nature's challenges, including hunger, mountains, and deserts. New York Times bestselling author Michael Grant says Not a Drop to Drink is a debut "not to be missed," and this companion title is full of Mindy McGinnis's evocative, spare language matched with incredible drama and danger. In a Handful of Dust is perfect for fans of the Partialis, Enclave, and Legend series.
