peripheral nerve disorders pathology and genetics

The pathology of peripheral neuropathy is reflected in the spinal cord. Acute axonal neuropathy causes central chromatolysis. Axonal neuropathy and distal axonopathy involving the bipolar neurons of the dorsal root ganglia cause degeneration of the central axons of these neurons in the gracile and cuneate tracts of the spinal cord.

PERIPHERAL NERVE PATHOLOGY

Most PNS disorders are secondary to other system disorders and may be responsive to treatment of the primary disease. Important advances have been obtained in several areas including molecular genetics, biochemistry, immunology, morphology and physiology that have enhanced our understanding of the causes and consequences of damage to peripheral nerve.

Peripheral Nerve Disorders | Gérard Said and Christian ...

As the rate of obesity and the prevalence of type 2 diabetes increase, diabetic neuropathy is the most common cause of peripheral neuropathy. Many systemic disorders with metabolic origin, like amyloidosis, hepatic failure, vitamin deficiencies, uremia, lipid metabolism disorders, and others, can also cause axonal or myelin alterations in the peripheral nervous system.

Diseases of the Peripheral Nerves

Peripheral nervous system disorders are often suspected based on clinical findings (eg, stocking-glove distribution, hyporeflexia, distal muscle weakness

and wasting, localization to a peripheral nerve distribution).

Overview of Peripheral Nervous System Disorders ...

Peripheral neuropathy develops when nerves in the body's extremities, such as the hands, feet and arms, are damaged. The symptoms depend on which nerves are affected. In the UK it's estimated almost 1 in 10 people aged 55 or over are affected by peripheral neuropathy.

Measures of small fiber peripheral nerve integrity affected. Measures of small fiber peripheral nerve integrity were affected in persons with autism spectrum disorder (ASD) compared with age-matched controls, a small neurophysiology study found. "The observation of reduced skin innervation in autism individuals extends our knowledge of neural substrates underlying autism somatosensory symptoms due to dysregulated skin nerve development or degeneration," noted Sung-Tsang Hsieh, MD, PhD ...

Peripheral Sensory Pathology Seen in Autism Spectrum ...

Peripheral neuropathy, a result of

damage to the nerves outside of the brain and spinal cord (peripheral nerves), often causes weakness, numbness and pain, usually in your hands and feet. It can also affect other areas of your body. Your peripheral nervous system sends information from your brain and spinal cord (central nervous system) to the rest of your body.

Peripheral neuropathy - Symptoms and causes - Mayo Clinic

The role of peripheral nerve fibers and their neurotransmitters in cartilage and bone physiology and pathophysiology
The peripheral nervous system is critically involved in bone metabolism, osteogenesis, and bone remodeling. Nerve fibers of sympathetic and sensory origin innervate synovial tissue and subchondral bone of diarthrodial joints.
