Over time, it may become important to remove the Harley clutch lever and brake lever to thoroughly clean the levers, pins, and the general area. If your Harley clutch lever leads to a clutch cable, slacken the cable at the adjuster. Remove the pivot pin so that the clutch lever and cable end can be removed, then remove the Harley clutch lever. Hold the end of the cable straight upward and work some lube into the cable, once again, allowing gravity to pull the lube down into the cable.
