Cooperative learning is a classroom instruction presentation model that involves students working together to meet their learning goals in learning teams or groups. In the 1940s, education reformers like John Dewey began to analyze the benefits of students working together in the classroom.

Cooperative Learning and How to Use It in the Classroom ...

Cooperative Learning, sometimes called small-group learning, is an instructional strategy in which small groups of students work together on a common task. The task can be as simple as solving a multi-step math problem together, or as complex as developing a design for a new kind of school. In some cases, each group member is individually accountable for part of the task; in other cases, group members work together without formal role assignments.
