First Public Health act In 1842, Edwin Chadwick published a report that proved poor living conditions were directly linked to disease and low life expectancy. This led to the Public Health act in 1848. This act was the first in a whole series that would improve the living and working conditions of the poorest people during the 1800s.

Ann Arbor, MI, October 16, 2014. Although disease outbreaks and epidemics drawing worldwide attention emphasize the importance and acute need for public health professionals, the world faces a longer-term challenge—a public health workforce that is truly effective in the 21 st century. In a new supplement to the American Journal of Preventive Medicine, experts address critical challenges to public health, from workforce development, capacity building, partnership and collaborations, and ...

They are little remembered now, but before the introduction of the NHS in 1948, some 1,000 women at hospitals across the country policed the boundaries of medical charity, public and private healthcare. It was the job of these 'lady almoners', as they were known, to interview patients and decide an appropriate rate.
