Mama is a miner really pulls at my heartstrings. This book was dedicated to the authors mother. Throughout the book, through the illustrations I could feel how the author felt. The facial expressions on the little girl said enough when they were on just one page.

"Mama" is a song by the English rock band Genesis, released as the first single in 1983 from their self-titled album. It is recognisable for its harsh drum machine introduction composed by Mike Rutherford, which leads into minimalist synthesizer lines in a minor tonality and finally Phil Collins' reverb-laden voice. It remains the band's most successful single in the UK, peaking at No. 4 on the UK Singles Chart. It also made the top 10 in Switzerland, Austria, Norway, Ireland and the Netherlands
