Service Manual Transmission For A

A manual transmission (also known as a manual gearbox; abbreviated as MT) is a multi-speed transmission where gear changes require the driver to manually select the gears by operating a gear stick and clutch (which is usually a foot pedal for cars, or a hand lever for motorcycles).. Early automobiles used sliding mesh manual transmissions with up to three forward gear ratios.

Manual transmission - Wikipedia

The manual requires a simple, in comparison, drain and fill of the transmission fluid. Most manufacturers recommend that manual transmission fluid be changed every 30,000 to 60,000 miles. Under heavy-duty use, such as towing or stop-and-go traffic, some manufacturers suggest changing transmission fluid every 15,000 miles.

A sequential manual transmission (like the kind of gearbox used on a fully-manual motorcycle) is a type of non-synchronous manual transmission, which only allows the driver to select either the next gear (e.g., shifting from second gear to first gear) or the previous gear (e.g. shifting from second gear to third gear), in succession. This restriction avoids accidentally selecting the wrong ...

Transmission (mechanics) - Wikipedia

In a car with manual transmission, the clutch will bridge the engine and transmission, so you can change gears when you press the clutch pedal. In an automatic gearbox, this happens completely automatically. In your service manual, you can see when it is time to change the oil in your gearbox.

What is a Transmission? Read more about transmissions here.

When we service a manual transmission, we simply change the oil in the gearbox because there is no filter however an automatic transmission service requires us to change the filter that is attached to the transmission oil pump as well so the job is a bit bigger.
