The Transformation of Governance offers a new framework for reconciling effective administration with the requirements of democratic government. Instead of thinking in terms of organizational structure and management, Donald F. Kettl suggests, administrators and theorists need to focus on governance, or the links between government and its broader environment—political, social, and administrative—through which social action occurs.

Across the globe governments and government agencies are implementing digital transformation projects and initiatives for a myriad of reasons, of which the satisfaction and experience of a changing citizen is one and cost savings another. These transformations happen on all levels: national, regional,

local, supra-national.

Digital transformation in government and the public sector

It looks at institutional governance, legislation, and inter-departmental co-ordination, including institutional capacities and skills for delivering quality public services.

It identifies opportunities for making public service delivery more efficient and inclusive, as well as for expanding the strategic use of data. The review provides policy recommendations to help Panama enable and sustain the digital transformation of the public sector.
