 Excerpt from chapter 1
 - The Right to be Rich
 Whatever may be said
 in praise of poverty,
 the fact remains that it
 is not possible to live a
 really complete or
 successful life unless
 one is rich. No man can
 rise to his greatest
 possible height in
 talent or soul
 development unless he
 has plenty of money;

for to unfold the soul and to develop talent he must have many things to use, and he cannot have these things unless he has money to buy them with. A man develops in mind, soul, and body by making use of things, and society is so organized that man must have money in order to become the possessor of things; therefore, the basis of all advancement for man must be the science of getting rich. The object of all life is development; and everything that lives has an inalienable right to all the development it is capable of attaining. Man's right to life means his right to have the free and unrestricted use of all the things which may be necessary to his fullest mental, spiritual,

and physical unfoldment; or, in other words, his right to be rich. In this book, I shall not speak of riches in a figurative way; to be really rich does not mean to be satisfied or contented with a little. No man ought to be satisfied with a little if he is capable of using and enjoying more.

As featured in the bestselling book *The Secret*, here is the landmark guide to wealth creation republished with the classic essay "How to Get What You Want." Wallace D. Wattles spent a lifetime considering the

In his seventeen short, straight-to-the-point chapters, Wattles shows how to use this

idea, how to overcome barriers to its application, and how work with very direct methods that awaken it in your life. He further explains how creation and not competition is the hidden key to wealth attraction, and how your power to get rich uplifts everyone around you. I can still remember my tears hitting the pages as I was reading it. It gave me a glimpse of The Secret. It was like a flame inside of my heart. And with every day since, it's just become a raging fire of wanting to share all of this with the world." The book is included in personal development scholar Tom Butler-Bowdon's list of "50 Success Classics" in his 2004 book of that name. The Science of Getting Rich (Hindi)

QFORD Books

It is the desire of God that you should get rich. He wants you to get rich because He can express Himself

better through you if you have plenty of things to use in giving Him expression. He can live more in you if you have unlimited command of the means of life. The universe desires you to have everything you want to have. Nature is friendly to your plans. Everything is naturally for you. Make up your mind that this is true. God wants is that you should make the most of yourself, for yourself, and for others. And you can help others more by making the most of yourself than in any other way. You can make the most of yourself only by getting rich, so it is right and praiseworthy that you should give your first and best thought to the work of acquiring wealth. The

ownership of money and property comes as a result of doing things in a certain way. Those who do things in this certain way, whether on purpose or accidentally, get rich. Those who do not do things in this certain way, no matter how hard they work or how able they are, remain poor. It is a natural law that like causes always produce like effects. Therefore, any man or woman who learns to do things in this certain way will infallibly get rich. Rhonda Byrne, in her book, *The Secret*, tells how a 100-year-old book entered her life and changed it forever. Here is that book. Written in 1910, *The Science of Getting Rich* inspired Byrne to create her bestselling CD, and subsequently, to write her book. She

has said that it gave me a glimpse of *The Secret*. It was like a flame inside of my heart. And with every day since, it's just become a raging fire of wanting to share all of this with the world. "There is a science of getting rich. It is an exact science, like algebra or arithmetic. There are certain laws which govern the process of acquiring riches. Once a person learns and obeys these laws, he will get rich with mathematical certainty." --Wallace D. Wattles, *The Science of Getting Rich*)
