3 Defining and measuring the quality of general practice. The main aim of this inquiry has been to examine the current

quality of care in general practice across key 'dimensions' and to identify opportunities for quality improvement. For this reason, the inquiry's main focus has not been on quality measurement per se, but on how data and information on quality may be used to drive quality improvement.

3 Defining and measuring the quality of general practice

The first step is to agree on a company-wide definition, and then agree on the metrics to enforce that quality. The key here is to focus on creating metrics. Having metrics and a baseline to measure against gives you the confidence to factually say you have a quality

product, based on your company's definition.

How to Measure the Quality of Your Product

Abstract. The modern quality field in medicine is about one-third of a century old. The purpose of this paper is to summarize what we know about quality of care and indicate what we can do to improve quality of care in the next century. We assert that quality can be measured, that quality of care varies enormously, that improving quality of care is difficult, that financial incentives directed at the health system level have little effect on quality, and that we lack a publicly available ...

We can try to take these factors into account when measuring quality but

it's often hard to define exactly how the changes have impacted. Quality means different things to different people. Health Foundation Governor Margaret Goose makes a strong case for including patient and family views when measuring quality. She explains how patients and the wider public have a significant role to play: not only in designing improvements, but in monitoring whether they have the desired impact – not ...
