Project Management, 8e provides a holistic and realistic approach to Project Management that combines the human aspect and culture of an organization with the tools and methods used It covers concepts and skills used to propose, plan secure resources, budget and lead project teams to successful completion of projects. this text is not only on how the management process works, but also, and more importantly, on why it works. It's not intended to specialize by industry type or project scope ...

Project Management: The Managerial Process: Larson, Erik ...

A project is a temporary endeavour undertaken to create a unique product, service or result, often used to embed

enduring business change (Larson & Gray, 2011). A well-planned project adopts processes that capture agreed benefits from the outset, putting in place mechanisms that monitor progress and delivery (APM, 2006).
