Furthermore, several healthcare services treating patients with BPD are trying to find an integrated approach for their hospital

and community treatment. The authors speculate that the increased number of admissions of patients with BPD is reducing the total capabilities of physical and mental wards to treat patients with other pathologies.

Current healthcare challenges in treating the borderline ...

Personality, by definition, is pervasive and ingrained, not an isolated set of troubling symptoms. Borderline personalities usually do not seek mental health care to have their characters transformed; they want help for depression, anxiety, and problems in their work and family lives. But a psychiatrist, psychologist, or counselor can help make these patients more aware of how their patterns of behavior and thinking aggravate those symptoms and complicate those problems.
