The Eudaimonic Turn Well Being

Transcendence is a eudaimonic pathway to well-being that is independent of personal development (although undoubtedly both can co-exist). For example, a mother who dedicates her life to raising (rather than merely looking after) her children as fully functioning human beings may not have much time to devote to her own personal development.

This, in turn, has been seized upon by modern psychologists who emphasise the idea of living life in such a way as to utilise natural talents and maximise potential. This idea clearly separates eudaimonic well-being from a more hedonic approach, with the latter emphasising pleasure and happiness, while the former is more concerned with individual growth and the conscious nurturing of your own unique set of skills, talents, and aptitudes.

The eudaimonic approach also originated in Greece, deriving from Aristotle's view of human nature that a person's wellbeing is dependent on their achieving their potential.

The hedonic and eudaimonic approaches to wellbeing

The Eudaimonic Turn is a collection of critical essays that, taken as a totality, represent a radical shift in focus and orientation. In the challenge to the hermeneutics of suspicion, the adoption of alternative reading strategies, and the complex investigation of well-being as it is configured in various texts, the collection is an analogue of a new discourse that has emerged, one that has immensely enriched literary studies in the last decade.
