...

This user-friendly volume provides evidence-based tools for meeting the needs of the approximately 15% of K-12 students who would benefit from more support than is universally offered to all students but do not require intensive, individualized intervention. With a unique focus on Tier 2 interventions for both academic and behavioral difficulties, the book addresses externalizing behavior ...

Academic and Behavior Supports for At-Risk Students: Tier ...

Positive Behavior Intervention and Supports (PBIS) provides an operational framework for achieving these outcomes. The PBIS framework provides the structure and tools for our educational community (teachers, staff, parents, and students) to promote behavioral and social success for all members. Generally, PBIS emphasizes four integrated elements:

Behavioral and Academic Support - The International School ...

Integrated Model of Academic and Behavior Supports The National Association of School Psychologists (NASP) is committed to ensuring that all children receive an appropriate public education, regardless of race, culture and background, language, sexual orientation, gender identity and expression, socioeconomic status, or educational need.

Integrated Model of Academic and Behavior Supports

Relationship between behavior and academic performance The Positive Behavioral Interventions and Support program, a teaching and training organization for professional educators, cites numerous studies on its website that suggest students with poor classroom behavior often struggle with academic skills.

Strategies to Improve Classroom Behavior and Academic

...

Critical core components of tertiary supports include functional behavior assessment, functional academic assessment (Witt, Daly, & Noell, 2000), comprehensive team-based approaches, connecting academic and behavioral supports, interventions grounded in assessments that may include altering the environment and instruction, teaching needed skills, decreasing the efficiency of problem behaviors, use of safety or negative consequences as needed, increasing behavioral expertise, and use of ...

Integrating Academic and Behavior Supports: Tertiary ...

Secondary supports systems in academics and behavior share a surprising number of critical features. First, secondary supports are often overseen by a team charged with pre-referral consultation, screening, assessment, and progress monitoring, in addition to actual intervention (Lewis-Palmer, Bounds, & Sugai, 2004).

Integrating Academic and Behavior Supports: Secondary

...

The relationship between academic and behavior problems is a long recognized phenomenon (Alexander, Entwisle, & Horsey, 1997; Hinshaw, 1992). In their meta-analysis, Maguin and Loeber (1996) found that poor academic performance appears to be related to frequency, persistence, and seriousness of delinquent activity.

The Relationship Between Behavior & Academics

Positive Behavioral Support and Interventions (PBIS) was initially created to protect and support students with disabilities. However, PBIS is beneficial for all students and provides effective Tier I interventions as well.

9 Examples of Positive Behavior Support & Interventions

...

The CPST is a multi-disciplinary team of professionals who create and support a structure for school-based decision making, establish and monitor school-wide learning and development goals, ensure and coordinate the delivery of services to all students (academic, behavior, social-emotional learning), allocate

the resources needed to fully implement plans with fidelity, and monitor the effectiveness of Universal (Tier 1), Targeted (Tier 2) and Intensive (Tier 3) instruction, intervention and ...

School Climate & Discipline / MTSS Academic and Behavioral ...

The idea behind positive behavior support (PBS) is that behaviors are predictable and that predictable problems are preventable. As any teacher can attest, problem behaviors, while pervasive, are generally predictable under a variety of specific circumstances. Under a PBS system, specially designed rules, routines, and physical arrangements are used to effectively decrease the number of problem behaviors that occur due to inadequate or poorly designed environments.
