The Third Eye

Race, Cinema, and Ethnographic Spectacle *Duke University Press*

Charting the intersection of technology and ideology, cultural production and social science, Fatimah Tobing Rony explores early-twentieth-century representations of non-Western indigenous peoples in films ranging from the documentary to the spectacular to the scientific. Turning the gaze of the ethnographic camera back onto itself, bringing the perspective of a third eye to bear on the invention of the primitive other, Rony reveals the collaboration of anthropology and popular culture in Western constructions of race, gender, nation, and empire. Her work demonstrates the significance of these constructions—and, more generally, of ethnographic cinema—for understanding issues of identity. In films as seemingly dissimilar as *Nanook of the North*, *King Kong*, and research footage of West Africans from an 1895 Paris ethnographic exposition, Rony exposes a shared fascination with—and anxiety over—race. She shows how photographic “realism” contributed to popular and scientific notions of evolution, race, and civilization, and how, in turn, anthropology understood and critiqued its own use of photographic technology. Looking beyond negative Western images of the Other, Rony considers performance strategies that disrupt these images—for example, the use of open resistance, recontextualization, and parody in the films of Katherine Dunham and Zora Neale Hurston, or the performances of Josephine Baker. She also draws on the work of contemporary artists such as Lorna Simpson and Victor Masayesva Jr., and writers such as Frantz Fanon and James Baldwin, who unveil the language of racialization in ethnographic cinema. Elegantly written and richly illustrated, innovative in theory and original in method, *The Third Eye* is a remarkable interdisciplinary contribution to critical thought in film studies, anthropology, cultural studies, art history, postcolonial studies, and women's studies.

The Pineal Gland

The Eye of God *Colchis Books*

As the pineal gland was the one most recognized and written about by the earlier adepts, it is the logical beginning of any occult discussion of the endocrine chain. The epiphysis cerebri, or pineal body, secures its name from its peculiar shape (thepinus, or pine cone) and arises in the fifth week of the human embryo as a blind sac branching off from that section of the brain which is next in front of the mid-brain—the diencephalon—which includes the area of the third ventricle and adjacent parts. The distal, or remote, portion of this sac becomes the body of the gland. The proximal portion (the point of attachment or origin) remains as the stalk. Is not this pine cone the one to which E. A. Wallis-Budge refers in his *Osiris and the Egyptian Resurrection*, when in describing the entry of Ani into the presence of Osiris in the Egyptian ritual of Coming Forth by Day as “the so-called ‘cone’ on Ani’s wig,” for which the good Egyptologist could find no intelligent reason? Is this not also the whirring cone which was among the symbolic playthings of the child Bacchus and which Bastius describes as a small cone-shaped piece of wood around which a cord was wound so that it might be made to spin and give out a “humming noise”? (See *Orpheus*, by G. R. S. Mead.) Those acquainted with the esoteric function of the pineal gland or who have experienced the “whirring” sound attendant upon its activity will realize how apt is the analogy.

Yes! This is a mystery/ thriller built on the principles of reincarnation and hypno-therapeutic regressions. The novel may appeal to those of most Eastern philosophies because of their view toward those concepts. If you question or do not believe in the possibility of reincarnation, think of the Trilogy as a fantastic story of science fiction, time-travel, zombies, vampires or Harry Potter. No matter what your beliefs, sit back, sip on a cup of tea and enjoy the adventure. Readers Compare Through the Third Eye to: > Da Vinci Code & Angels and Demons > The Indiana Jones adventure series > The Torah Codes and the Bible Codes Background on the Third Eye Trilogy: Nearly six years of research went into Book 1 of Third Eye Trilogy. Much of that was garnering details on the historical characters portrayed through the possibility of reincarnation. The author scoured documented historical details to make interconnections between historical figures across thousands of years. He also conducted extensive research on hypnotic regression techniques used by psychologists, psychiatrists and therapist in their practices. This laid a foundation for the techniques used by Clay and Shali to find their secrets. The author personally visited many of the geographical settings portrayed in the story to ensure a high degree of accuracy for the reader's benefit. Please get your copy today.

Third Eye Rising

Stories *Spuyten Duyvil*

"Third Eye Rising explores the neurodiversity of India through two of the country's most compelling aspects: family ties and spiritual faith. In a land where divisions of caste and class threaten survival, where the religious are corrupt and the corrupt religious, and where dogmas and superstitions impede economic and

individual progress, Shroff shows how spiritual realizations impact daily lives and how they help withstand circumstances of corruption, greed, betrayal, prejudice, and personal loss. In the title story, "Third Eye Rising," a young wife must prove her innocence to her sadistic in-laws; in "The Kitemaker's Dilemma" a nomadic kitemaker takes it on himself to save a melancholic boy from exile; in "Bhikoo Badshah's Poison" a migrant youth, employed in the city, attempts to shed the burden of his caste; in "Diwali Star" a retired police inspector draws on the events of the epic Ramayana to redefine his relationship with his sons; in "A Matter of Misfortune" two childhood friends have a face-off over the two faces of India: urban and rural; in "Oh Dad!" a dutiful son takes it on himself to protect his father from an unscrupulous taxman; in "An Invisible Truth" an employer delves into his manservant's life only to get a life-changing insight into his own. Through these stories, we learn how in India it is spiritual faith that unifies, inspires, and frees its recipients from the bondage of struggle. Shroff has tackled his subject-the darker side of India-with the full democracy of his imagination and an empathy that believes in the eternal unity of man"--
