Success in Electronics (Successfully Passing Series) by ...

If you are struggling to understand electronics, I would highly recommend this book - the writing is so much clearer and complete when compared with competing books. --By N. Ryall on 17 Oct. 2010 The Major difference with this book is that it really teaches in careful details with 'simple worked examples'(i.e tested circuits) the basics of electronics right from the first chapters.

A Level Electronics Explained: Amazon.co.uk: Brimicombe, M ...
This is a pretty basic book when it comes Electronic circuits and the theory behind it. There are plenty of other books that go far more indepth. However, this book is cheap, short, and written in a way that someone (like myself) who doesn't have a strong background in Electronic Engineering can have a pretty solid foundation to work off of as they start building circuits.
