Toward a Caring Curriculum: A New Pedagogy for Nursing ...

Caring is often cited as the central component of many health care professions. It is also identified as an equally important factor in patient physical and emotional recovery. In examining health care education, however, curriculum is becoming increasingly focused on the development of technical competence and skill with little focus on the affective aspects of providing care in a caring context.

Toward A Caring Curriculum A New Pedagogy For Nursing

Developing a rigorous curriculum that builds upon or, at least, includes student interests is a challenging and satisfying pedagogical task, but teachers need extra time and encouragement to work this way. The phenomenological analysis of caring reveals the part each participant plays. The one-caring (or carer) is first of all attentive.
