It studies how the human body came from evolution. It studies how genetics makes the human body. Anatomy studies the parts of the body and how they work together. Ecology studies the environment including how humans affect it. Physical anthropology is a field of science. It compares humans to other hominids. It also studies all other hominid bodies. They look at how humans and chimpanzees are ...

Human body - Simple English Wikipedia, the free encyclopedia

This article contains a list of organs of the human body. It is widely believed that there are 100 organs; however, there is no universally standard definition of what constitutes an organ, and some tissue groups' status as one is debated. Since there is no single standard definition of what an organ is, the number of organs varies depending on how one defines an organ.

Errors of the Human Body is a 2012 psychological thriller directed by Eron Sheean and starring Michael Eklund.

Plot. Dr. Geoff Burton , a brilliant genetics researcher, is invited to a lab in Dresden, only to discover a lethal virus is being created, which he may have unintentionally caused and be its first victim. This mystery is set against Dr. Burton trying to find redemption and peace from ...

Errors of the Human Body - Wikipedia

A mummy is a dead human or an animal whose soft tissues and organs have been preserved by either intentional or accidental exposure to chemicals, extreme cold, very low humidity, or lack of air, so that the recovered body does not decay further if kept in cool and dry conditions. Some authorities restrict the use of the term to bodies deliberately embalmed with chemicals, but the use of the ...
