Construction - PL Accounting Solutions

The method they choose will determine when income and expenses “count.” In some cases, they might use one method for their own bookkeeping and one for tax reporting, as long as they remain consistent over time. In construction accounting, the main options have traditionally included cash-basis, completed contract and percentage of completion. However, contractors now have to consider guidance from the new ASC 606 revenue recognition standards with their construction CPA.

Construction Accounting 101: A Basic Guide for Contractors

Construction Accounting. The construction industry has long struggled with the inherent challenge of accounting for indirect contract costs. This is a result of expenses occurring that are not directly related to one contract. Or it may be because foreseeing what their actual amounts will be, such as repairs and maintenance, is not realized.
