Designing Federalism: A Theory of Self-Sustainable Federal Institutions. The design of federal states from Russia and

the Ukraine to Canada and the European Union typically develops from a false set of assumptions regarding the institutional building blocks of such a state. Rather than any carefully delineated allocation of policy jurisdictions, the authors argue that a number of institutional variables, not normally associated with federal design, can be critical in determining federal success.

Designing Federalism: A Theory of Self-Sustainable Federal ...

It is natural, when thinking of democratic federalism, to begin with the classic and most successful examples – the United States, Germany, Australia, Switzerland, Canada, India, and even the more economically underachieving ones of

Brazil and Argentina – and to assume that designing a federal state is a well-understood exercise of finding a suitable balance between regional autonomy and federal authority.

Designing Federalism : A Theory of**Self-Sustainable ...**

Federalism is the theory or advocacy of federal principles for dividing powers between member units and common institutions. Unlike in a unitary state, sovereignty in federal political orders is non-centralized, often constitutionally, between at least two levels so that units at each level have final authority and can be self governing in some issue area.
