Each candlestick has a body and usually a wick above and below it. The body of the candlestick chart is made up from the open and close prices. This is the price area that is filled. If the candlestick does not have an upper or lower wick, this means that the opening or closing price was also the highest or lowest price for that interval.

How To Read A Candlestick Chart: With Real Examples ...

Whether these charts employ candlestick charting or are simple bar charts, technical analysis assumes that current prices should represent all known information about the markets. Prices not only reflect facts, they also represent human emotion and the psychology and mood of the moment.

Candlestick Charting

Compared to traditional bar charts, many traders consider candlestick charts more visually appealing and easier to interpret. Each candlestick provides a simple, visually appealing picture of price action; a trader can instantly compare

the relationship between the open and close as well as the high and low.
