Gardening with children provides the
perfect combination of skills and tasks to

address your child's development. For
example, gardening is a great physical
development activity. Young children
can practice locomotor skills, body
management skills and object control
skills while they move from one place to
the other carrying tools, soil and water.

Gardening with young children helps their development ...

Encourage parents to play and interact
with their young children. Children learn
best through hands-on experiences, and
the parents will see this during their
interactions. As the parents observe and
participate in their child's learning and
progress, they will better understand the
connections between movement,
communication and healthy
development.

How to Help Parents Understand How Young Children Develop ...

Gardening is a healthy, fun activity for children. Children develop new skills and learn about science and nature from growing their own food. There is a variety of interesting activities children can be involved in, such as planting, mulching, weeding and cooking.
