For over 100 years, the machine called Colligatarch had ruled the Earth. Its predictions of the future have proved so accurate that humans accepted its recommendations as the best course of action - until a young engineer in Phoenix begins to travel without authorization, enter secret places, assume aliases, and display super-human feats of strength. Is it because he has fallen in love? Or has he instead fallen into an interplanetary plot?

Alien Virus Love Disaster**Stories** *Small Beer Press*

Philip K. Dick Award finalist Washington Post Best Science Fiction and Fantasy of 2018 Abbey Mei Otis's short stories are contemporary fiction at its strongest: taking apart the supposed equality that is clearly just not there, putting humans under an alien microscope, putting humans under government control, putting kids from the moon into a small beach town and then the putting the rest of the town under the microscope as they react in ways we hope they would, and then, of course, in ways we'd hope they don't. Otis has long been fascinated in using strange situations to explore dynamics of power, oppression, and grief, and the twelve stories collected here are at once a striking indictment of the present and a powerful warning about the future. "After I read this book, I woke up with bumpy, reddish growths along my spine. They burst, releasing marvels: aliens, robots, prefab houses, vinyl, chainlink, styrofoam, star stuff, tales from the edge of eviction, so many new worlds. Alien Virus Love Disaster is a super-intelligent infection. Let Abbey Mei Otis give you some

lumps.” — Sofia Samatar, author of Tender

Icerigger *Hachette UK*
Far out on the frozen outer limits of the thranx/humanx Commonwealth, on the permafrosted plant of Tran-ky-ky, lay the chilly trading outpost of Brass Monkey. Inward bound on the interstellar transport Antares, Ethan Frome Fortune, space travelling salesman with a neat line in perfumes, jewelled knick-knacks and up market gadgetry, ran into grizzled, galactic hell raiser Skua September for the first time. Kidnapped, knocked unconscious and crash landed - all quite accidentally - they

were about to find out that life on the sub- zero wasteland was full of incident. Bored they would not be. Dead they might well be - particularly if Sagyanak, Chief of the nomadic Horde, could lay hands on them. The great adventure has just begun and early retirement was not an option.
